The Man Who Refused Heaven Paramhansa Yogananda, Swami Kriyananda, 2017-06-15 Joy Is Fundamental to Who We Are Paramhansa Yogananda translated the classic definition of God given by Swami Shankarananda Sat chid ananda as Ever existing ever conscious ever new joy Yogananda added the concept of new to the ancient definition Yogananda explained that God became His creation which means that all of life exists is conscious and has the quality of joy innately within it This is why human beings universally seek happiness It is our nature to be happy and the search for happiness motivates everyone A master is one who has united his consciousness with Satchidananda and so you see in the masters profound joy Some share this joy outwardly through their personalities others may be more serious outwardly but great joy sparkles in their eyes and is felt in

their presence Yogananda's experience of life his experience of the goal of all life was filled with joy He lived in joy always and sought to awaken it in others Though he could be intensely serious and deep as appropriate he also could express the greatest joy often in unexpected situations The humor in *The Man that Refused Heaven* arose spontaneously from Yogananda's deep joy Sometimes he used humor to express an important spiritual principle Sometimes he used it in training the disciples to help them learn in a way that reasoned lectures could never achieve Most of the humor in this book was taken from Yogananda's writings Also included are experiences with the master that demonstrate his playful spirit These were written by Swami Kriyananda from his years of being trained personally by Yogananda or from stories that were shared with him by other close disciples The message of this book is both playful and serious The serious message is that joy can be found within us always We should look for it there and share it with others *Sculptum Est Prosa (Volume 2)* Ivan

Kireevskii, 2018-11-07 This volume explores the range and uses of quotations echoes and allusions drawn from thousands of intertextual instances that Kireevskii has recognized in his work The principal interest of the echoes examined here lies in the revaluation of the poet and the theoretical issues his varied use of them suggests Through echoing Kireevskii embodies and explicates his assertions of continuity in human development his vision of interchange between the mind and nature As a poet he is a person who constantly experiences sees hears suspects hopes and dreams extraordinary things is struck by his own thoughts as if from outside or from above and below as if by his type of events and lightning bolts is perhaps a storm himself pregnant with new lightning and is a fatal person in whose vicinity things are always rumbling growling gaping and acting in uncanny ways Listen very carefully because Kireevskii writes in a very symbolic form and unless you are very alert in reading his words you may miss all the implications The reason why he is so symbolic is that he is so full of new insights and he has so much he desires to share and to give As with a hermit's writings you can always hear something of the echo of the desert something of the whisper and the timid sideways glance of solitude a concealed philosophy where every opinion is also a hiding place every word is also a mask **This Dynamic World** Charles W. Morgan, 2010 This Dynamic World is

visually beautiful and full of useful knowledge The book makes plain what has been obscure Long before our New Age of Aquarius or even the environmental evangelism of an inconvenient truth Charles Morgan 91 year old Hindu preacher and farmer philosopher revealed the secrets of the last days For instance we learn that Levi Dowling brought forth the Akashic Record and Aquarian Gospel of Jesus Christ not in the 1960s but in the 1860s Long before the planned community open space or green space Charles Morgan postulated the city in a building From the dust bowl to today's drying of the west this farmer said we farm too much and honor nature too little This Dynamic World leads us to prophets from Moses to Edgar Cayce thinkers from Plato to Confucius scientists from Einstein to Hawking and also spiritual masters like Paramahansa Yogananda the first Hindu yogi in America and his disciple In this book we learn from saints like Paul and John on his isle of Patmos as well as from heavenly messengers called by some angels by others astral beings We find God With Us called by

some Messiah by others avatar The book is a key to enlightenment on a spiritual level of existence in a planetary community for individual and worldwide salvation where we are all related and must relate to each other This is the concept of biorelativity This Dynamic World calls us on a Worldwide Crusade for Biorelativity This Dynamic World uses the fabric of time as a scientific basis for prophecy and the astral cycle of George King Jeanne Dixon and Ruth Montgomery We embrace good vibrations energy meditation and yoga but also the Word of God and the philosophies of men in a determination to take blessed action

Waking, Dreaming, Being Evan Thompson, 2014-11-11 A renowned philosopher of the mind also known for his groundbreaking work on Buddhism and cognitive science Evan Thompson combines the latest neuroscience research on sleep dreaming and meditation with Indian and Western philosophy of the mind casting new light on the self and its relation to the brain Thompson shows how the self is a changing process not a static thing When we are awake we identify with our body but if we let our mind wander or daydream we project a mentally imagined self into the remembered past or anticipated future As we fall asleep the impression of being a bounded self distinct from the world

dissolves but the self reappears in the dream state If we have a lucid dream we no longer identify only with the self within the dream Our sense of self now includes our dreaming self the I as dreamer Finally as we meditate either in the waking state or in a lucid dream we can observe whatever images or thoughts arise and how we tend to identify with them as me We can also experience sheer awareness itself distinct from the changing contents that make up our image of the self Contemplative traditions say that we can learn to let go of the self so that when we die we can witness the dissolution of the self with equanimity Thompson weaves together neuroscience philosophy and personal narrative to depict these transformations adding uncommon depth to life s profound questions Contemplative experience comes to illuminate scientific findings and scientific evidence enriches the vast knowledge acquired by contemplatives *Two Souls: Four Lives* Catherine Kairavi,2010-10-16

Is it possible that two of the greatest men of the Norman Conquest William the Conqueror and his son Henry I of England have recently reincarnated as Paramhansa Yogananda spiritual master and author of the classic Autobiography of a Yogi and his close disciple Swami Kriyananda and if so what are the subtle connections between the Norman Conquest and modern times How will these past lives influence our future In *Two Souls Four Lives* Catherine Kairavi describes a society much more primitive than our own in both knowledge and consciousness she depicts the days of William and Henry as having been far more brutal than our own despite the much greater capacity for destruction of modern weaponry Historians will inevitably object that mankind was the same in William s day as it is today For they are intellectual scholars and there is no aspect of human consciousness more disposed to argument than the intellect It is kept vital and alive after all by argument It will probably be other historians who grow up with this new and broader perspective on their subject Catherine Kairavi devoted ten years carefully researching for this book For the rest maybe Paramhansa Yogananda s statement that he himself was William could outweigh for many readers any doubts and challenges that may be presented to disprove certain statements in this book It is a completely new take on present and future trends in modern society **The**

Life and Times of Baba Ramdev Ashok Raj,2010-04-01 The continuing saga of a contemporary mass leader who sought out a vision and a method to amalgamate yoga and health care into the mainstream consciousness Baba Ramdev s emergence as the new ideologue of a national and global spiritual resurgence is considered by many as a curious phenomenon This work is a study on the making of the Ramdev spectacle with all its inescapable assertiveness mass enthusiasm and of course controversies It seeks to locate his philosophy in today s socio cultural milieu while tracing its origins in Indian spiritual history and the past landmark reformist movements that have been initiated in the country by earlier path breakers including Sri Aurobindo Swami Dayananda Paramhansa Yogananda Swami Sahajanand Saraswati Bhagwan Nityananda J N Krishnamurty and Sri Ramana Rishi Indeed Ramdev represents a renewed continuity to the great revival of the ancient Indian spiritual traditions and yoga that took place in the twentieth century and received recognition worldwide With his own version of holistic yoga as a ploy for instituting the universal right to health Baba Ramdev has proposed two distinct

ideological alternatives to the current established order of the world pranayama and the yogic way of life as the key to health restoration and well being and manifestation of an enabling spiritual environment for personal and social transformation Ramdev s arrival once again underlines the continuing significance of Oriental spiritualism the world over as it offers perhaps the most promising insights for the creation of a new spiritually awakened man a man at ease with himself and with the world around him
