The Mystery of Emotions R D

Hinshelwood,2023-03-16 Psychoanalysis is above all the science of the emotions but as yet there is no single accepted theory of affects Instead there are many all of them too limited based as they are on idiosyncratic introspection R D Hinshelwood presents an extensive scoping of the prominent theories from the philosophy of mind and academic psychology alongside a review of psychoanalytic ideas based on instinct theory or object relations This wide review of divergent theories from various disciplines helps to mitigate variation and identify commonalities From this scoping exercise Hinshelwood creates a
