Beyond The Firmament Understanding Science And The Theology Of Creation:

Beyond the Firmament Gordon J. Glover, 2007 As debates within the Church over the scientific details of creation become more frequent the experts seem to grow more entrenched while the rest of us only become more confused Somewhere between the endless arguments over distant starlight and Carbon 14 dating calculating the mathematical improbabilities of things that already exist and parsing ancient Hebrew and Greek somebody needs to ask the simple question If 3 500 years of scientific progress can't help modern Christians figure out Genesis then how could the ancient Israelites possibly have understood it so well What secret did this newly liberated gaggle of Hebrew nomads take with them out of Egypt that holds the key to understanding God's telling of His own creation story Beyond the Firmament challenges all creationist camps whether Young Earth Old Earth or Theistic Evolutionist to step outside of traditional paradigms and recognize how our modern Western post Enlightenment scientific worldview actually blinds us from seeing the simple truth of Creation as it was originally intended and how our failure to grasp the theological significance of the Biblical creation model puts science and faith on a collision course

Thoughts on the Genesis of the Universe, Science, and the Divine Spiritual World Thomas Bridge, 2022-08-01 This is a partial summary of the ongoing quest by mankind to understand who he is where he came from how he relates to what his senses tell him about his physical and social environment Does the continuum of change he experiences have a purpose other than what he gives it His methods of inquiry and observations using created instruments and experimentation have allowed him to discover some of the history of the universe since the beginning of space time Also the interpretation of the earth's history recorded in the rocks and rock structures the history of life recorded as fossils in time rock sequences and their relation to present day living forms and associated environments has become more clear as to man's place in the history of space time All these studies have led to a better understanding of how energy drives the forces at work that produce the ever changing present What are changes in the future that are believed by some to be even more remarkable than the amazing physical changes and processes that have been observed in the history of space time

Judgment and Salvation Dustin G. Burlet, 2022-11-03 This book contends the text of the Noachian deluge narrative categorically underscores all God did to preserve life in spite of the disaster Despite the picture of devastation that the narrative depicts the prominent emphasis of the text is on deliverance and redemption i.e. salvation not judgment The focus of the Genesis flood is acutely bent towards God's salvific rather than punitive purposes The arc of salvation within the flood narrative can be broken down into two main ideas Firstly God's intention for creation is not thwarted and secondly God commits himself to his intentions of creation God's intention for creation can be stated thus the establishment of order via covenant showing the sanctity of human life and the upholding of all life This involves in particular humanity as his image bearers including the lex talionis life for life principle

How the World Was Made K B Napier, 2018-09-24 This book could have been ten times longer but it serves the purpose of introducing Christians to the

truth concerning the beginning of the world and the universe The first three chapters of Genesis describe historical facts not myths as the Hebrew texts prove Most quotes are by scientists Evolutionists jealously guard their failed hypothesis because as they say they cannot let God get a foothold in science In itself this is an admission of anxiety that truth will one day be shown and it is NOT found in scientism which is the fake version of science There are absolutely NO proofs for evolution But how many know this Evolutionists are so scared of this truth getting out they will resort to legal restraints They are so afraid they enforce evolution only in schools by intimidation and false science and denigrate students in universities for daring to question evolutionary orthodoxy Yet genuine scientists KNOW evolution is fake They hate God That s it **The Christian**

Delusion John W. Loftus, 2010-04-27 In this anthology of recent criticisms aimed at the reasonableness of Christian belief former evangelical minister and apologist Loftus has assembled fifteen outstanding articles by leading skeptics expanding on themes introduced in Loftus first book The Evolution of Adam Peter Enns, 2021-10-19 Can Christianity and evolution coexist Traditional Christian teaching presents Jesus as reversing the effects of the fall of Adam But an evolutionary view of human origins doesn t allow for a literal Adam making evolution seemingly incompatible with what Genesis and the apostle Paul say about him For Christians who both accept evolution and want to take the Bible seriously this can present a faith shaking tension Popular Old Testament scholar Peter Enns offers a way forward by explaining how this tension is caused not by the discoveries of science but by false expectations about the biblical texts In this 10th anniversary edition Enns updates readers on developments in the historical Adam debate helping them reconcile Genesis and Paul with current views on evolution and human origins This edition includes an afterword that explains Enns s own theological evolution since the first edition released

Origins Paul Copan, Douglas Jacoby, 2018-08-28 An excellent introduction to the challenges and benefits of reading Genesis 1 11 as a genuinely ancient specifically ancient Near Eastern text Iain Provon author of Seriously Dangerous Religion Origins turns much of what Christians learned in Sunday School on its head in a revealing comparison of the Genesis narrative to the competing pagan narrative of the day Relatively few Bible readers are familiar with the world of the ancient Near East centered in Mesopotamia and its most prominent city Babylon The culture literature religions geography etc of the early biblical period dramatically influenced what was written and why and without an understanding of these elements the purposes meanings and structure of the text are easily misread by modern readers and reduces the primeval narrative to a collection of Sunday School stories Origins while acknowledging the agendas of modern readers remains on track in expounding on the ancient agenda Paul Copan and Douglas Jacoby address the doubts of those who find stumbling blocks in early Genesis facing the tough questions head on and providing biblical solution to many of the problem passages Origins surprises and amazes all seekers new believers and veterans of Scripture alike as it devastates the polytheistic pagan assumptions and proclaims the true God A fine addition to the ever increasing library of books concerning Genesis One also hopes that this volume might be leveraged as an apologetics tool to help those looking for theistic

From Fear to Faith Joel L. Watts, Travis Milam, 2013-05-13 There's a stereotype of a young zealous Christian who feels called to the ministry as a pastor goes to seminary and then loses his faith as he studies the writings of all those intellectuals and theologians The stereotype may not be accurate but there are those who fit this description not to mention many who leave home for college as passionate Christians and come home unbelievers More importantly that stereotype represents a fear the fear that too much education or contact with those whose beliefs differ from those of a particular community will cause someone to lose their faith But there's another group much larger but not heard nearly as frequently This group consists of people who have gone from the position of fear that creates the stereotype to a position of faith a faith that is no longer afraid of that outer darkness that looms outside the walls of their religious community Indeed they may not perceive any looming darkness at all From Fear to Faith edited by Travis Milam and Joel L Watts gives voice to that too often unheard group It is a collection of essays from those who have lived in fear have faced the looming dark collided with their share of brick walls but have come out with a new found faith and undismayed trust The journeys of faith presented in this book reveal a group deeply insightful and grounded minds rich in thriving spirituality joy and hope Where there was once trepidation in asking the tough questions of human existence of the divine relationship with creation there is now a certain hope found when these authors have struggled to overcome canyons of fear leaving behind a life of black and white certitude to live in a beautiful world of gray They have learned that having questions and even doubts does not reflect a lack of faith Rather hiding in fear from the serious questions indicates a lack of faith in the one who said Don't be afraid Come join in this journey from fear to faith **Beyond the Sea of Life on a Bridge Called Why** Joel M Levin MD, 2019-01-05 There are

opposing viewpoints that keep our voyage afloat Like all matters in life there are people with strong opinions that are black and white while others live in the gray zone These people are the independent ones the fence hangers and doubting Thomases who continue to say show me the proof It has always been the music in my life that helps me understand the majesty and glory of my being
