Architecture Principe 1966 And 1996:

Virilio for Architects John Armitage, 2015-06-26 Paul Virilio is an innovative figure in the study of architecture space and the city Virilio for Architects primes readers for their first encounter with his crucial texts on some of the vital theoretical debates of the twenty first century including Oblique Architecture and Bunker Archeology Critical Space and the Overexposed City The Ultracity and Very High Buildings Grey Ecology and Global Hypermovement In exploring Virilio s most important architectural ideas and their impact John Armitage traces his engagement with other key architectural and scientific thinkers such as Claude Parent Benoit B Mandelbrot and Bernard Tschumi Virilio for Architects allows students researchers and non academic readers to connect with Virilio s distinctive architectural theories critical studies and fresh ideas

Architecture and the Body, Science and Culture Kim Sexton, 2017-10-20 The relationship of architecture to the human body is a centuries long and complex one but not always symmetrical This book opens a space for historians of the visual arts archaeologists architects and digital humanities professionals to reflect upon embodiment spatiality science and architecture in premodern and modern cultural contexts Architecture and the Body Science and Culture poses one overarching question How does a period s understanding of bodies as objects of science impinge upon architectural thought and design The answers are sophisticated interdisciplinary explorations of theory technology symbolism medicine violence psychology deformity and salvation and they have unexpected and fascinating implications for architectural design and history The new research published in this volume reinvigorates the Western survey style trajectory from Archaic Greece to post war Europe with scientifically framed body centred provocations By adding the third factor science to the architecture and body equation this book presents a nuanced appreciation for architectural creativity and its embeddedness in other sets of social institutional and political relationships In so doing it spatializes body theory and ties it to the experience of the built environment in ways that disturb traditional boundaries between the architectural container and the corporeally contained

The biopolitics of the war on terror Julian Reid, 2013-07-19 Newly available in paperback this book overturns existing understandings of the origins and futures of the War on Terror for the purposes of International Relations theory It demonstrates why this is not a war in defence of the integrity of human life but a war over the political constitution of life in which the limitations of liberal accounts of humanity are a fundamental cause of the conflict The question of the future of humanity is posed by this war but only in the sense that its resolution depends on our abilities to move beyond the limits of dominant understandings of the human and its politics Theorising with and beyond the works of Foucault Deleuze Baudrillard Virilio and Negri this book examines the possibilities for such a movement What forms does human life take it asks when liberal understandings of humanity are no longer understood as horizons to strive for but impositions against which the human must struggle in order to fulfil its destiny What forms does the human assume when war against liberal regimes becomes the determining condition of its possibility Answers to such questions are pressing this book argues if we earnestly

desire an escape from the current impasses of international politics **Spatial Transformations** Angela Million, Christian Haid, Ignacio Castillo Ulloa, Nina Baur, 2021-10-17 The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9781003036159> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license This book examines a variety of subjective spatial experiences and knowledge production practices in order to shed new light on the specifics of contemporary socio spatial change driven as it is by inter alia digitalization transnationalization and migration Considering the ways in which emerging spatial phenomena are conditioned by an increasing interconnectedness this book asks how spaces are changing as a result of mediatization increased mobility globalization and social dislocation With attention to questions surrounding the negotiation and visual communication of space it explores the arrangements spatialities and materialities that underpin the processes of spatial refiguration by which these changes come about Bringing together the work of leading scholars from across diverse range disciplines to address questions of socio spatial transformation this volume will appeal to sociologists and geographers as well as scholars and practitioners of urban planning and architecture *Architecture and Choreography* Beth Weinstein, 2024-05-31 *Architecture and Choreography* Collaborations in Dance Space and Time examines the field of architectural choreographic experiments unique interdisciplinary encounters and performed events generated through collaborations between architects and choreographers Forty case studies spanning four decades give evidence of the range of motivations for embarking on these creative endeavors and diverse conceptual underpinnings generative methods objects of inquiry and outcomes *Architecture and Choreography* builds histories and theories through which to examine these works the contexts within and processes through which the works emerged and the critical questions they raise about ways to work together sites and citations ethics and equity control and agency Three themes frame pairs of chapters The first addresses disciplinarity through works that critically reflect upon their discipline s tools techniques and conventions juxtaposed against projects that cite or use other art forms and cultural phenomena as source material The second interrogates space and the role of spatial dispositifs institutions and sites and their hidden and not so hidden conditions as conceptual drivers and structures to subvert trouble unsettle remember The third asks who and what dances finding a spectrum from mobilized architectural bodies to more than human cyborgs Modes of collaboration and the temporalities and life cycles of projects inform bookending chapters *Architecture and Choreography* offers vital lessons not only for architects and choreographers but also for students and practitioners across design and performance fields Graphical Heritage Luis Agustín-Hernández, Aurelio Vallespín Muniesa, Angélica Fernández-Morales, 2020-05-11 This book presents the proceedings of the 18th International Conference on Graphic Design in Architecture EGA 2020 focusing on heritage including architectural and graphic heritage as well as the graphics of heritage Consisting of two parts Representation and Analysis and Concept and Creation this second volume gathers selected contributions on topics ranging from graphic representation to the graphic presentation of ideas i.e. artistic
