Between Globalization and Integration Sebastian Vaduva, 2016-02-23 This volume focuses on the integration and globalization of Romania a prominent emerging market in South Eastern Europe and one of the major players in the securitization of the Black Sea and the Eastern European border as both a part of NATO since 2004 and a fully integrated EU Member State since 2007 It will examine the challenges the country has faced in its progression from totalitarianism to democracy through several waves of reform intended to update and streamline its political and economic processes for success in the free market capitalist arena Having learned the hard way about some of the key aspects of public administration Romania has learned a place for itself among the diverse global players of Europe and beyond The first section reviews current perspectives on globalization and its impact in the late 20th century It has flattened the Earth generating better communication and exchanges than ever before but also gathering a fair amount of criticisms from commentators seeing it as little else than neo colonialism Cooperative administrative strategies are being suggested instead in order for new public administration patterns to smoothly run in coordination with the globalized world In the second section the European Union is described as a complex multi level socio political entity itself historically in turmoil over its own style of rule e g hierarchy vs coordination integration vs centralization etc or even its own existence as the European dream seemed to be losing steam with the general population of Europe several times in the previous century Powers and responsibilities of the European institutions and agencies are also discussed Thirdly the recent history of Romania is approached from the Europeanization context starting from its post 1989 days of confusion and of attempting to jumpstart democracy Eventually it has to undergo a series of reforms and internalize some principles fundamental to the EU in order for the much awaited accession to occur and its multiple effects to start taking place A country with a rich cultural heritage and straddling multiple socio political axes Romania has plenty more to offer in the new geostrategic security and development contexts of the 21st century Europe As such this volume provides inspiration for further research and practical application opportunities on topics of local European and global significance Integration and Globalization Ion Iliescu, 2003 *Economics of Global and Regional Integration* Tibor Palánkai, 2014 **Romania on the Way to European Economic Integration** Nicolae Gh Niculescu, Ioan D. managerial systems were recalibrated to replace profit maximizing objectives with social objectives yielding mixed results Since the revolution of 1989 and the integration into NATO and the European Union Romanian management systems are once again an integral part of the global economy As the COVID 19 crisis revealed the limitations of globalization and the overreliance on Asian suppliers Romania along with the rest of Eastern Europe will continue to be integrated into the global economy and become a dependable alternative to Asian suppliers This is an open access book

Romania in the Context of Globalization, Regionalization and Convergence Elena Pelinescu, 2007 The economic convergence is an instrument of harmonization in areas with high degree of economic integration For Romania it is important to know the degree of fulfillment of the convergence criteria and the impact of the policies which sustain their achievement because few studies had as object the analysis of the degree of fulfillment in countries like Romania and Bulgaria which were included in the latest EU extension wave We use different methods in order to show the cointegration process and the results The techniques applied to the statistical data regarding the nominal convergence the consolidated budget deficit as a share of GDP the share of public debt in GDP the rate of inflation the interest rate and the exchange rate have revealed some results which appear in others studies too namely that Romania integrates in the fixed target Maastricht criteria the budget deficit as a share of GDP the share of public debt in GDP and follows a pattern of convergence for the other criteria

Romania in the European Union Bogdan N. Glavan, 2007 Although highly beneficial from a pragmatic point of view Romania's accession in the European Union is problematic especially in the long run and from a theoretical perspective In

the short run adoption of european model emphasizes the advantages of economic integration In the long run however political considerations can dominate economic liberties **Regional Economic Integration in a Global Framework**
