Beyond Aspect Expression Discourse Typological:

Beyond Aspect Doris L. Payne, Shahar Shirtz, 2015-12-15 Certain grammatical elements help hearers know how propositions are conceptually related Does a given proposition advance the foregrounded event line or not Initiate versus continue an event chain Indicate that one proposition belongs to a different mental space from the previous one Provide background information Studies in this volume show that African languages sometimes support but often refute the idea that perfective aspect or past tense marks the narrative event line Rather languages may employ clause level constructions conjunctions or connectives tonal melodies on verbs or subjects specialized auxiliaries special verb forms and even dependent clause and imperfective aspect forms Often correlation of such grammatical elements with the event line is a subcase of a more general function Analyses in this volume contribute to developing a typology of the expression of discourse functions a field of research which has so far been minimally addressed from a typological perspective *Studies in the Grammar and Lexicon of Neo-Aramaic* Geoffrey Khan, Paul M. Noorlander, 2021-01-15 The Neo Aramaic dialects are modern vernacular forms of Aramaic which has a documented history in the Middle East of over 3 000 years Due to upheavals in the Middle East over the last one hundred years thousands of speakers of Neo Aramaic dialects have been forced to migrate from their homes or have perished in massacres As a result the dialects are now highly endangered The dialects exhibit a remarkable diversity of structures Moreover the considerable depth of attestation of Aramaic from earlier periods provides evidence for pathways of change For these reasons the research of Neo Aramaic is of importance for more general fields of linguistics in particular language typology and historical linguistics The papers in this volume represent the full range of research that is currently being carried out on Neo Aramaic dialects They advance the field in numerous ways In order to allow linguists who are not specialists in Neo Aramaic to benefit from the papers the examples are fully glossed **On reconstructing Proto-Bantu grammar** Koen Bostoen, Gilles-Maurice de Schryver, Rozenn Guérois, Sara Pacchiarotti, 2023-03-15 This book is about reconstructing the grammar of Proto Bantu the ancestral language at the origin of current day Bantu languages While Bantu is a low level branch of Niger Congo the world s biggest phylum it is still Africa s biggest language family This edited volume attempts to retrieve the phonology morphology and syntax used by the earliest Bantu speakers to communicate with each other discusses methods to do so and looks at issues raised by these academic endeavours It is a collective effort involving a fine mix of junior and senior scholars representing several generations of expert historical comparative Bantu research It is the first systematic approach to Proto Bantu grammar since Meeussen s Bantu Grammatical Reconstructions 1967 Based on new bodies of evidence from the last five decades most notably from northwestern Bantu languages this book considerably transforms our understanding of Proto Bantu grammar and offers new methodological approaches to Bantu grammatical reconstruction Theory and description in African Linguistics Emily Clem , Peter Jenks , Hannah Sande , 2019 The papers in this volume were presented at the 47th Annual Conference on
