explains how to implement a more enlightened and authentic leadership style that aligns people's strengths to the delivery of a compelling future. *Designing the Purposeful Organization* draws on a unique framework that helps leaders manage the eight elements essential for high performance: purpose, vision, engagement, structure, character, results, success, and talent. It moves beyond the boundaries of transactional performance ("pay me X and I'll deliver Y") to a purpose-centred performance that releases talent, creativity, and engagement. It features case studies from Google, Whole Foods Market, the NHS, and the London 2012 Olympics and is ideal for practitioners in organization development, senior HR managers, and business leaders.
