Italian Fascism's Empire Cinema Ruth Ben-Ghiat, 2015-02-11 Ruth Ben-Ghiat provides the first in-depth study of feature and documentary films produced under the auspices of Mussolini's government that took as their subjects or settings Italy's African and Balkan colonies These empire films were Italy's entry into an international market for the exotic The films engaged its most experienced and cosmopolitan directors Augusto Genina Mario Camerini as well as new filmmakers Roberto Rossellini who would make their marks in the postwar years Ben-Ghiat sees these films as part of the aesthetic development that would lead to neo-realism Shot in Libya Somalia and Ethiopia these movies reinforced Fascist racial and labor policies and were largely forgotten after the war Ben-Ghiat restores them to Italian and international film history in this gripping account of empire war and the cinema of dictatorship *The Cinema of Ettore Scola* Rémi Lanzoni, Edward

Bowen, 2020-09-08 *The Cinema of Ettore Scola* makes Scola accessible to English reading audiences and helps readers better understand his film style the major themes of his work and the representations of twentieth-century Italian history in his films **Resistance, Heroism, Loss** Thomas Cragin, Laura A. Salsini, 2018-02-20 In no other country in Europe has national identity been so closely bound to memories of the war Italy's Republic was born of World War II its constitution defined by anti-Fascism its parties self-identified with national Resistance Because of their importance to the nation's identity the nature and meaning of the war have been the focus of great contention from 1943 to the present day In recent years Italy has taken on a national evaluation of the more troubling and contested aspects of its role in the war including its support of Fascism and collaboration after 1943 its treatment of Jews and other minorities deep national divisions that created a civil war between 1943 and 1945 and the centrality of war myth to lingering postwar problems Scholars of Italian history literature and cinema play a fundamental role in this appraisal and this volume of essays attests to the importance of film and literature to the ways in which changing political social and cultural imperatives have altered the war's memory These articles expand our understanding of the shifting phases in national memory by highlighting significant features of each era's portrayal of the

war Contributions come from eight scholars who capture the full variety of disciplinary and sub disciplinary approaches that are current today including film genre studies cultural history gender studies Holocaust studies and the very new fields of emotion studies shame theory and environmental studies Their innovative application of questions and methods that speak to important new subfields in Italian Studies make this volume an invaluable tool for scholars and their students Fame Amid the Ruins Stephen Gundle,2019-11-04 Italian cinema gave rise to a number of the best known films of the postwar years from Rome Open City to Bicycle Thieves Although some neorealist film makers would have preferred to abolish stars altogether the public adored them and producers needed their help in relaunching the national film industry This book explores the many conflicts that arose in Italy between 1945 and 1953 over stars and stardom offering intimate studies of the careers of both well known and less familiar figures shedding new light on the close relationship forged between cinema and society during a time of political transition and shifting national identities
