The Social Self in Zen and American Pragmatism Steve Odin,1996-01-01 The thesis of this work is that in both modern Japanese philosophy and American pragmatism there has been a paradigm shift from a monological concept of self as an isolated I to a dialogical concept of the social self as an I Thou relation including a communication model of self as individual society interaction It is also shown for both traditions all aesthetic moral and religious values are a function of the social self arising through communicative interaction between the individual and society However at the same time this work critically examines major ideological conflicts arising between the social self theories of modern Japanese philosophy and American pragmatism with respect to such problems as individualism versus collectivism freedom versus determinism liberalism versus

communitarianism and relativism versus objectivism The Cambridge Revival of Political Economy Nuno Ornelas Martins, 2013-10-23 The marginalist revolution of the late nineteenth century consolidated what Karl Marx and Piero Sraffa called vulgar economy bringing with it an emphasis on a scarcity theory that replaced the classical surplus theory. However, the classical political economy of Adam Smith and David Ricardo has been revived within the Cambridge economic tradition. This book looks at how different branches of the Cambridge economic tradition have focused on various aspects of this revival over time. The author shows that classical political economy is distinct from vulgar political economy in terms of its economic, social, and ethical theory, with each difference resting on an issue of ontology. Structured in three parts, the book examines the central contested aspects of these theories: namely, the nature of value, the relationship between human beings and social structure, and the nature of human wellbeing. The Cambridge Revival of Political Economy will be relevant to students and researchers within the fields of political economy, history of economic thought, politics, and philosophy.
