A Poet Speaks Of Empire:

Poems of Nation, Anthems of Empire Suvir Kaul, 2000 In *Poems of Nation Anthems of Empire* Suvir Kaul argues that the aggressive nationalism of James Thomson's ode *Rule Britannia* 1740 is the condition to which much English poetry of the late seventeenth and eighteenth centuries aspires. Poets as varied as Marvell, Waller and Dryden, Defoe, Addison, John Dyer and Edward Young or Goldsmith, Cowper, Hannah More and Anna Laetitia Barbauld all wrote poems deeply engaged with the British nation in the making. These poets and many others like them recognized that the nation and its values and institutions were being defined by the expansion of overseas trade, naval and military control, plantations and colonies. Their poems both embodied and were concerned about the culture and ideology of Great Britain itself, an idea of the nation that developed alongside the formation of a British Empire. Poems in this period thus flaunt various images of poetic inspiration that show poetry and culture following triumphantly where mercantile and military ships sail. Or sometimes more self-aggrandizingly for the poet they enact the process by which the Muses use their powers to inspire and show the way. Even at their most hesitant these poems were written as interventions into public discussion; their creativity is tied up with that desire to convince and persuade. Finally, as Kaul writes, it is their encyclopedic desire to incorporate new experiences, visions and values that makes these poems such fine guides to the world of poetry in the long years in which Great Britain was consolidated as an empire at home and abroad.

National Poetry, Empires and War David Aberbach, 2016-09-13 Nationalism has given the world a genre of poetry bright with ideals of justice, freedom and the brotherhood of man but also at times burning with humiliation and grievance, hatred and lust for revenge driving human kind as the Austrian poet Grillparzer put it. From humanity via nationality to bestiality, *National Poetry, Empires and War* considers national poetry and its glorification of war from ancient to modern times in a series of historical, social and political perspectives. Starting with the Hebrew Bible and Homer and moving through the Crusades and examples of subsequent empires, this book has much on pre-modern national poetry but focuses chiefly on post-1789 poetry which emerged from the weakening and collapse of empires as the idealistic liberalism of nationalism in the age of Byron, Whitman, D. Annunzio, Yeats, Bialik and Kipling was replaced by darker purposes culminating in World War I and the rise of fascism. Many national poets are the subject of countless critical and biographical studies but this book aims to give a panoramic view of national poetry as a whole. It will be of great interest to any scholars of nationalism, Jewish Studies, history, comparative literature and general cultural studies.

The Quarrel Between Poetry and Philosophy John Burns, Matthew Flamm, William Gahan, Stephanie Quinn, 2020-09-27 *The Quarrel Between Poetry and Philosophy: Perspectives Across the Humanities* is an interdisciplinary study of the abiding quarrel to which poet-philosopher Plato referred centuries ago in the *Republic*. The book presents eight chapters by four humanities scholars that historically contextualize and cross-interpret aspects of the quarrel in question. The authors share the view that although poets and philosophers continually quarrel, a harmonious union between the two groups is achievable in a manner promising
