A Quiet Revolution The Veils Resurgence From The Middle East To America:

A Quiet Revolution Leila Ahmed, 2011-04-29 A probing study of the veil's recent return from one of the world's foremost authorities on Muslim women that reaches surprising conclusions about contemporary Islam's place in the West today. In Cairo in the 1940s Leila Ahmed was raised by a generation of women who never dressed in the veils and headscarves their mothers and grandmothers had worn. To them these coverings seemed irrelevant to both modern life and Islamic piety. Today however the majority of Muslim women throughout the Islamic world again wear the veil. Why Ahmed asks did this change take root so swiftly and what does this shift mean for women, Islam and the West? When she began her study Ahmed assumed that the veil's return indicated a backward step for Muslim women worldwide. What she discovered however in the stories of British colonial officials, young Muslim feminists, Arab nationalists, pious Islamic daughters, American Muslim immigrants, violent jihadists and peaceful Islamic activists confounded her expectations. Ahmed observed that Islamism with its commitments to activism in the service of the poor and in pursuit of social justice is the strain of Islam most easily and naturally merging with western democracies' own tradition of activism in the cause of justice and social change. It is often Islamists even more than secular Muslims who are at the forefront of such contemporary activist struggles as civil rights and women's rights. Ahmed's surprising conclusions represent a near reversal of her thinking on this topic. Richly insightful, intricately drawn and passionately argued, this absorbing story of the veil's resurgence from Egypt through Saudi Arabia and into the West suggests a dramatically new portrait of contemporary Islam.

Veils, Nudity, and Tattoos Thorsten Botz-Bornstein, 2015-08-27 At first sight tattoos, nudity and veils do not seem to have much in common except for the fact that all three have become more frequent, more visible and more dominant in connection with aesthetic presentations of women over the past thirty years. No longer restricted to biker and sailor culture, tattoos have been sanctioned by the mainstream of liberal societies. Nudity has become more visible than ever on European beaches or on the internet. The increased use of the veil by women in Muslim and non-Muslim countries has developed in parallel with the aforementioned phenomena and is just as striking. Through the means of conceptual analysis, *Veils, Nudity and Tattoos: The New Feminine Aesthetics* reveals that these three phenomena can be both private and public, humiliating and empowering, and backward and progressive. This unorthodox approach is traced by the three's similar social and psychological patterns and by doing so, *Veils, Nudity and Tattoos* hopes to sketch the image of a woman who is not only sexually emancipated and confident but also more and more aware of her cultural heritage.

The Tunisian Women's Rights Movement Jane D Tchaïcha, Khedija Arfaoui, 2017-07-14 Tunisian women have received significant attention for their active participation in preserving and extending women's rights since 2011. However, their activism and latest achievements should be considered not a recent phenomenon but rather part and parcel of a distinctive local history that has included women as agents of change. This book examines Tunisian women's lived experiences as individuals and as a group within a sociohistorical framework that uncovers the enduring feminine

footprint over centuries and eventually underpins and defines their most recent fight for gender equality in postrevolutionary Tunisia The historic and current presentation of Tunisian women s public and civic engagement distinguishes between different types of women s objectives in order to examine women s activism holistically as it evolved in the local context The Tunisian Women s Rights Movement will be of interest to students and scholars of Tunisia North African and Middle East Studies and gender in the Arab world **The Routledge International Handbook to Veils and Veiling** Anna-Mari Almila,David Inglis,2017-07-06 Veils and veiling are controversial topics in social and political life generating debates across the world The veil is enmeshed within a complex web of relations encompassing politics religion and gender and conflicts over the nature of power legitimacy belief freedom agency and emancipation In recent years the veil has become both a potent and unsettling symbol and a rallying point for discourse and rhetoric concerning women Islam and the nature of politics Early studies in gender doctrine and politics of veiling appeared in the 1970s following the Islamic revival and re veiling trends that were dramatically expressed by 1979 s Iranian Islamic revolution In the 1990s research focussed on the development of both an Islamic culture industry and greater urban middle class consumption of Islamic garments and dress styles across the Islamic world In the last decade academics have studied Islamic fashion and marketing the political role of the headscarf the veiling of other religious groups such as Jews and Christians and secular forms of modest dress Using work from contributors across a range of disciplinary backgrounds and locations this book brings together these research strands to form the most comprehensive book ever conceived on this topic As such this handbook will be of interest to scholars and students of fashion gender studies religious studies politics and sociology **Silhouettes of the Soul** Otto Von Busch,Jeanine Viau,2022-02-10 What is the relationship between the soul or inner life and what we wear in the making of identity and belief What bearing do religious and political belonging respectability and resistance have on the way in which we dress Why have more traditional religious practices been so prescriptive about body adornment Historically fashionable dress and religion have been positioned as polar opposites Silhouettes of the Soul brings them together placing them in conversation with each other By moving beyond traditional social scientific and historical analysis of religious attire and adornment the book presents a variety of disciplinary approaches from across regional social and religious locations Contentious and challenging as well as academically rigorous the book s diverse range of contributors from fashion and religious studies scholars to designers activists monastics and journalists explore the relationship between religion and fashion extending the meanings and possibilities of both dress and spirituality Combining interviews and personal stories with more traditional theoretical analysis Silhouettes of the Soul offers new ways of looking at the relationship between religion personal convictions and self expression our sense of self and our sense of fashion **Islamic Sisterhood** Etsuko Maruoka-Donnelly,2019-01-24 Muslims have been major targets of hate crimes and discrimination in the US since 9 11 Anti Muslim resentment increased again after Donald Trump won the U S presidency and revitalized far right politics In this hostile environment why do many young

Muslim women choose to wear a headscarf and publicly display their Islamic identity This book unravels this puzzle by drawing on sociological insights and three years of ethnographic study with Muslim adolescents in New York during the post 9 11 backlash It finds that young American born Muslim women choose to cover their hair and bodies not simply out of spiritual devotion to Islamic fundamentalism but also and primarily to cope with social adversity rooted in sexism racism and patriarchy in both their ethnic community and the larger Western society This book will appeal to scholars students and other readers interested in the Muslim diaspora gender race and ethnicity youth immigration and social movements
