[Bedtime Stories for Clever Kids](#) Etienne Labuschagne, 2024-08-16

Young children are more perceptive than we might imagine. Curiosity and intelligence are a heady cocktail for creative storytelling that informs, entertains, and educates. This author could not resist. We might not realize how observant young children are. They have a lot of curiosity and intelligence that make them great at creating stories that can teach, amuse, and enlighten. This author was drawn to this. You may wonder what a child understands about freedom, the environment, tolerance, and self-worth. This book is for sensitive kids who want to know more about these tough topics. The themes are presented in small pieces in a safe and interesting setting with colourful illustrations throughout. Moral questions are woven into the dialogues with the characters with some humour and fun. The aim is that bedtime stories like these will encourage meaningful and loving conversations between parent and child. The imagination has a power that can take us anywhere. The experience can be thrilling, and the lessons learned can be life-changing. Parents may not know how to broach a subject. These stories open a door for them to do so. The door is open. So are you just going to stand there or are you coming in?
