

An artistic photograph of two bright yellow birds, possibly weavers, perched on a dark, textured branch. They are actively building a nest using long, thin blades of green grass. The birds are positioned on the left side of the frame, with their bodies angled towards the right. The background is a solid, deep black, which makes the vibrant yellow of the birds and the green of the grass stand out. The lighting is soft, highlighting the texture of the birds' feathers and the individual blades of grass.
