## **Bargaining Conditions Provincial Government 1978 1993:**

**Centre and Provinces: China 1978-93** Linda Chelan Li, 1998-05-14 Centre and Provinces China 1978 93 goes beyond the dominant state capacity paradigm to argue for an interactive model to explain the political relations between the central and provincial governments in contemporary China The uni dimensional centrist perspective of the state capacity paradigm has failed to adequately explain the coexistence of central and provincial power and to anticipate circumstances of change In this book a hybrid rational choice cum institutional approach highlights the mutual power of both the Centre and the provinces each party the Centre or the provinces imposes structural constraints upon the other Power is not a zero sum game The cases of Shanghai and Guangdong important resourceful provinces under very different central policy contexts contrast possible interactions between central policy and provincial choice Conflicts amidst a context of mutual dependence necessitate compromise on both sides and qualitative changes to centre-province relations as a result may well have long term implications for wider political processes

**The Chinese State's Retreat from Health** Jane Duckett, 2012-08-21 Over the post Mao period the Chinese state has radically cut back its role in funding health services and insuring its citizens against the costs of ill health Using an analytical framework drawn from studies of state retrenchment in industrialized democracies and in post communist Eastern Europe Jane Duckett argues that the state's retreat from health in China was not a simple consequence of economic policies and market reform Just as important were the influences of health policies reform era political institutions communist party ideology and bureaucratic stakeholders Through her analysis Duckett maintains that by studying retrenchment in China the world's most populous nation and now a major global economic power we can better understand international transformations in the role of the state and the politics that shape that role The Chinese State's Retreat from Health both extends research on retrenchment politics to a major authoritarian state and contributes to piecing together understanding of the Chinese state's changing role across the economy and other social policies including housing and education It will be of interest to students and scholars of Chinese politics social policy and the Chinese health care system as well as to those with a comparative interest in health welfare states and the politics of retrenchment Jane Duckett is Professor of Chinese and Comparative Politics at the University of Glasgow UK
