Zen & the Art of Pond Building D. J. Herda, 2008 **Making Sense of Religion** Richard L. Corliss, 2014-11-05 We live in a world with many religious traditions People in these traditions believe that their religious view of life embodies what is important true and real Their religious views of life however differ significantly They can t all capture equally what is important true and real This book seeks to unravel this dilemma It rejects two approaches to address the problem First the view that one religious view of life is the absolute unique product of revelation and second the view that the foundation of all religious views of life is the same that they are all the product of religious experiences of the same religious ultimate This ultimate is sometimes called Being Itself sometimes the One Under the second view the differences between them are considered cultural Making Sense of Religion shows us that religious views of life are often radically different and these differences are not just cultural but substantive This book explores the hidden logic beneath the surface of religious views of life that holds them together and helps explain their differences What follows is a way presenting comparing defending and criticizing religious views of life This is a type of theology No-thing is Left to Tell John L. Kundert-Gibbs, 1999 This study

uses Zen Buddhism and Chaos theory as binocular lenses to examine the existential difficulties in Samuel Beckett s plays in terms that circumvent traditional Western schools of thought The book first outlines the salient points of Zen Buddhism and Chaos theory examining the interplay of ideas between the two disciplines The balance of the book uses Zen and Chaos theory to reveal new patterns and layers of meaning or non meaning in several of Beckett s most significant plays **The**

Making of Buddhist Modernism David L. McMahan, 2008-11-14 In this book David McMahan charts the development of modern Buddhism He presents modern Buddhism as a complex historical process constituted by a variety of responses to some of the most important concerns of the modern era **Anxiety And Musical Performance** Dale Reubart, 1985-01-21

In this book the author through his own experiences playing the piano aims to understand what exactly causes humans to feel nervous before public performances From Container to Kitchen D.J. Wallace, John Gach, 2010-04-13 Most of the prefatory issues are extensively elaborated upon in the Prolegomenon which also

contains the complete references to the texts and authors discussed below Nevertheless the Preface would be grossly incomplete without touching on some of these issues books and scholars Too many of this book s chapters e g Mora s Marx s D B Weiner s examine and reference important earlier as well as contemporary general histories of psychiatry and specialized monographs in German French Italian and Spanish Also in his 1968 Short History of Psychiatry d cussed below Ackerknecht pp xi xii references important nineteenth and earlier twentieth century psychiatric histories in English French and German Such citations will of course not be repeated here Finally thanks to several publishers re editions of dozens of classical psychiatric texts one can consult their bibliographies as well See Prolegomenon for references to these splendid series In a rough and ready sense medical history began in classical Greece for example On Ancient Medicine While traditionally included in the Hippocratic corpus this text seems more likely to have been written by a non or even anti Hippocratic doctor Moreover the Hippocratic and other schools were hardly as secular as we now suppose On Epilepsy for example does not so much declare the prevalent denotation of it as the sacred disease erroneous as it does that it is no more nor less sacred than any other disease Weird Mysticism Brad Baumgartner,2020-11-17 Weird Mysticism identifies and evaluates a new category of theoretical inquiry by showing the influence of speculative writing on three intersecting critical categories horror fiction apophatic mysticism and philosophical pessimism Exploring the work of Thomas Ligotti Georges Bataille and E M Cioran Baumgartner argues that these weird mystics employ an innovative mode of negative writing that seeks to merge new conceptions of reality While exploring perennial questions about the absolute the Outside and other philosophical concepts these authors push the limits of representation experimenting with literary form genre bending and aphoristic discourse As their works reveal the category of weird mysticism both conjoins and obscures the link between traditional mysticism and philosophical horror fiction with weirdness itself being the central magnet that draws the seemingly disparate realms of horror fiction philosophy and mysticism together Highlighting the theoretical stakes of the horror genre Baumgartner s study reveals how the mystical potentially recuperates the limits of philosophical thinking enabling reflection on and possibly challenging the limits of human understanding
