Critical Social Issues in American Education H. Svi Shapiro,David E. Purpel,2004-09-22 This text reader brings together powerful readings that critically situate issues of education in the context of the major cultural moral political economic ecological and spiritual crises that confront us as a nation and a global community It provides a focus and a conceptual framework for thinking about education in light of these issues Readers are exposed to the thinking of some of the best and most insightful social and educational commentators Critical Social Issues in American Education Democracy and Meaning in a Globalizing World Third Edition is intended to work on two levels First it helps readers to develop an awareness of how education is connected to the wider social structures of cultural political and economic life Second it encourages not only a critical examination of our present social reality but also a serious discussion of alternatives of what a transformed society and educational process might look like The editors goal is to deliberately engage readers in connecting the work of teachers to an ethically committed politically charged pedagogy The assumption on which they base the text is that educators must see their work as inextricably linked to the broader conflicts stresses and crises of the social world it is not otherwise possible to make sense of what is happening educationally What happens in school or as part of the educational experience reflects expresses and mediates profound questions about the direction and nature of the society we inhabit The text is organized thematically into five sections which address respectively social justice and democracy consumerism culture and public education marginality and difference moral and spiritual perspectives on education and globalization and education Each section is preceded by a brief essay that introduces the readings This Third Edition includes many new readings and addresses issues that have more recently emerged as especially significant such as concerns about the implications of globalization and the post 9 11 world commercialism violence and the ever increasing influence of high stakes testing This compelling text is relevant for a wide range of courses in educational foundations educational policy curriculum studies and multicultural education that address the social context of education cultural and political change and public policy

Exposés and Excess Cecelia Tichi,2013-03-01 From robber barons to titanic CEOs from the labor unrest of the 1880s to the mass layoffs of the 1990s two American Gilded Ages one in the early 1900s another in the final years of the twentieth century mirror each other in their laissez faire excess and rampant social crises Both eras have ignited the civic passions of investigative writers who have drafted diagnostic blueprints for urgently needed change The compelling narratives of the muckrakers Upton Sinclair Ida Tarbell Lincoln Steffens and Ray Stannard Baker among them became

bestsellers and prizewinners a hundred years ago today Cecelia Tichi notes they have found their worthy successors in writers such as Barbara Ehrenreich Eric Schlosser and Naomi Klein In *Expos s* and *Excess* Tichi explores the two Gilded Ages through the lens of their muckrakers Drawing from her considerable and wide ranging work in American studies Tichi details how the writers of the first muckraking generation used fact based narratives in magazines such as *McClure s* to rouse the U S public to civic action in an era of unbridled industrial capitalism and fear of the immigrant dangerous classes Offering a damning cultural analysis of the new Gilded Age Tichi depicts a booming insecure fortress America of bulked up baby strollers McMansion housing and an obsession with money as lifeline in an era of deregulation yawning income gaps and idolatry of the market and its rock star CEOs No one has captured this period of corrosive boom more acutely than the group of nonfiction writers who burst on the scene in the late 1990s with their expos s of the fast food industry the world of low wage work inadequate health care corporate branding and the multibillion dollar prison industry And nowhere have these authors Ehrenreich Schlosser Klein Laurie Garrett and Joseph Hallinan revealed more about their emergence as writers and the connections between journalism and literary narrative than in the rich and insightful interviews that round out the book With passion and wit *Expos s* and *Excess* brings a literary genre up to date at a moment when America has gone back to the future
