contributions of over 40 countries followed by a glossary of toxicological terms and an appendix of popular quotations related to the field. The book offered in both print and electronic formats is carefully structured, indexed, and cross-referenced to enable users to easily find answers to their questions or serendipitously locate useful knowledge they were not originally aware they needed. Among the many timely topics receiving increased emphasis are disaster preparedness, nanotechnology, omics, risk assessment, societal implications such as ethics and the precautionary principle, climate change, and children's environmental health. Introductory chapters provide a backdrop to the science of toxicology, its history, the origin and status of toxicoinformatics, and starting points for identifying resources. Offers an extensive array of chapters organized by subject, each highlighting resources such as journals, databases, organizations, and review articles. Includes chapters with an emphasis on format such as government reports, general interest publications, blogs, and audiovisuals. Explores recent internet trends, web-based databases, and software tools in a section on the online environment. Concludes with a miscellany of special topics such as laws and regulations, chemical hazard communication, resources, careers, and professional education. K-12 resources, funding, poison control centers, and patents. Paired with Volume Two, which focuses on global resources, this set offers the most comprehensive compendium of print, digital, and organizational resources in the toxicological sciences with over 120 chapters, contributions by experts and leaders in the field.

Lewis's Adult Health Nursing I & II (2 Volume Edition) with Complimentary Textbook of Professionalism, Professional Values and Ethics including Bioethics - E-Book Malarvizhi S., Renuka Gagan, Sonali Banerjee, 2023-12-12. The second South Asia edition of Black's Adult Health Nursing I & II including Geriatric Nursing has been comprehensively updated to suit the regional curricula for undergraduate nursing students. This book will help student nurses to acquire the knowledge and skill required to render quality nursing care for all common medical and surgical conditions. The contents have been made easy to understand using case studies, concept maps, critical monitoring boxes, care plans, and more. This text provides a reliable foundation in anatomy and physiology, pathophysiology, medical, surgical, management, and nursing care for the full spectrum of adult health conditions and is richly illustrated with flow charts, drawings, and photographs and South Asian epidemiological disease data for better understanding of the subject. Integrating Pharmacology boxes help students understand how medications are used for disease management by exploring common classifications of routinely used medications. Review questions have been added to all the units within this book. This second South Asia edition will be a valuable addition to every student nurse's bookshelf given the revisions and modifications.
