STEM for All Ages Seán G.Dwyer,2014-02 The brothers who invented the first successful aircraft were not Orville and Wilbur They were preceded by the Montgolfier brothers 120 years earlier in a type of aircraft still in wide use today 150 years before them the Celebi brothers made the first survivable rocket and intercontinental flights With the goal of providing an interesting learning experience the book s focus is not just on STEM Science Technology Engineering Math Also included is analysis of Cause Effect and a lot of surprising history So it is not just about HOW things work it is also about WHY they happened that way and the consequences Roughly every 500 years new technology completely disrupts society changing borders laws and the way people live and work It happened again with the emergence of the Digital Age Because aviation involves many fields of science it is a particularly interesting way to show how STEM is a continuum of mutually supporting elements Applications of chemistry physics astronomy navigation programming and paradigm paralysis are presented in a hands on understandable way

Women at Work from Ancient Egypt Through the Middle Ages Lora Ann Sigler,2025-10-17 Even voracious readers are often unaware that women have worked outside the home from the earliest recorded history A significant number of them have made names for themselves by being the first of either sex to do what they did For example the first musical composer we know of Enheduanna of Sumeria daughter of Sargon II Or even more astonishing the first practitioners of Caesarian sections for a difficult birth generally fatal for the mother but producing a live infant Thoroughly illustrated with high quality photographic images this work fills a gap in popular history detailing women at work from the dawn of civilization through to the Middle Ages There
