Reflections of South African Student Leaders: 1994 to 2017 Ntokozo Bhengu, Denyse Webbstock, 2020-05-13 Reflections of South African Student Leaders 1994 2017 brings together the reflections of twelve former SRC leaders from across the landscape of South African universities Reviews of the previous volume 1981 2014 suggested that it contributed significantly to a better understanding of the stringent demands of visionary and transformative leadership required by university leaders in the fastchanging and increasingly complex public

higher education sector This volume is based on comprehensive interviews with former student leaders each of whom provided a personal account in their own words of their experience in the position of student leadership The interviewees are from different backgrounds and of diverse political persuasions The book is important for current and future leaders of higher education institutions as it provides insights into the thinking aspirations desires fears and modus operandi of student leaders Such insight can contribute to developing and implementing appropriate strategies for achieving meaningful and constructive engagement with current and future student leaders *Resources in education* ,1983-06 **The**

Intercollegian ,1961 Mapping Leisure Ishwar Modi,Teus J. Kamphorst,2018-02-06 This volume addresses the rich and varied thoughts concepts approaches and leisure practices in sixteen countries of three continents Australia Asia and Africa The chapters showcase the diversity in the forms and ways in which the idea and practice of leisure have developed across space and time However the common thread through the chapters is that concepts and practices of leisure are found all over the world from pre historic settlements to the present day consumer societies Seemingly being at leisure is a capacity of the human species present at birth and which develops in a variety of individual and societal contexts Even in situations where leisure gets little official recognition as being an aspect of life such as under colonial rule or in extremely work centric societies it needs to be contextually understood This is a welcome addition to the literature on leisure studies from a global and comparative perspective *Association Men* ,1961 **Black Consciousness** Hlumelo Biko,2021-09-09 If Steve Biko

were alive today we would have a country that gladly embraces African culture as the dominant driving force for how society is organised In 1968 two young medical students Steve Biko and Mamphela Ramphele fell in love while dreaming of a life free from oppression and racial discrimination Their love story is also the story of the founding of the Black Consciousness Movement BCM by a group of 15 principled and ambitious students at the University of Natal in Durban in the early 1970s In this deeply personal book Hlumelo Biko who was born of Steve and Mamphela s union movingly recounts his parents love story and how the BCM s message of black self love and self reliance helped to change the course of South African history Based on interviews with some of the BCM s founding members Black Consciousness describes the early years of the movement in vivid detail and sets out its guiding principles around a positive black identity black theology and the practice of Ubuntu through community based programmes In spiritual conversation with his father Hlumelo re examines what it takes to live a Black Consciousness life in today s South Africa He also explains why he believes his father who was brutally murdered by the apartheid police in 1977 would have supported true radical economic transformation if he were alive today

Buthelezi Ben Temkin,2013-10-31 Ben Temkin Buthelezi s biographer had the full co operation of Chief Buthelezi in the writing of this book There were interviews and discussions in KwaZulu and in Johannesburg in offices at the airport in hotels in private homes and even while they travelled between centres in KwaZulu *Year of Fire, Year of Ash* Baruch

Hirson,2016-06-15 We can say without fear of being contradicted by history that June 16 1976 heralded the beginning of the

end of the centuries old white rule in this country Nelson Mandela Originally banned on publication by the apartheid government Year of Fire Year of Ash is an eye opening account of how in June 1976 20 000 school students faced down the tanks and guns of a vicious racist regime in a revolt that galvanized the black working class and became a pivotal turning point for the anti apartheid movement More than this the book overturns much of the conventional logic that served to explain the event at the time showing it was not simply a student protest but part of a wider uprising Released in this new edition to mark the fortieth anniversary Year of Fire Year of Ash provides an unparalleled insight into the origins and events of the uprising from its antecedents in the 1920s to its role in inspiring global solidarity against apartheid As South Africa experiences a new wave of popular discontent and as new forms of black consciousness come to the fore in movements around the world Baruch Hirson s book provides a timely reminder of the Soweto revolt s continued significance to struggles against oppression today
