Smithers, Simon Wendt, 2017-09-07 Contributions by Tunde Adeleke Brian D Behnken Minkah Makalani Benita Roth Gregory D Smithers Simon Wendt and Danielle L Wiggins Black intellectualism has been misunderstood by the American public and by scholars for generations Historically maligned by their peers and by the lay public as inauthentic or illegitimate black intellectuals have found their work misused ignored or discarded Black intellectuals have also been reductively placed into one or two main categories they are usually deemed liberal or less frequently as conservative The

contributors to this volume explore several prominent intellectuals from left leaning leaders such as W E B Du Bois to conservative intellectuals like Thomas Sowell from well known black feminists such as Patricia Hill Collins to Marxists like Claudia Jones to underscore the variety of black intellectual thought in the United States Contributors also situate the development of the lines of black intellectual thought within the broader history from which these trends emerged The result gathers essays that offer entry into a host of rich intellectual traditions

Slave Breeding Gregory D. Smithers, 2012-11-01 This book is an exploration of the idea of selective and forced slave breeding in the U S based on the collective memory and folktales of the descendants of enslaved people For over two centuries the topic of slave breeding has occupied a controversial place in the master narrative of American history From nineteenth century abolitionists to twentieth century filmmakers and artists Americans have debated whether slave owners deliberately and coercively manipulated the sexual practices and marital status of enslaved African Americans to reproduce new generations of slaves for profit In this bold and provocative book a historian investigates how African Americans have narrated remembered and represented slave breeding practices He argues that while social and economic historians have downplayed the significance of slave breeding African Americans have never been able to forget the trauma of violence and sexual coercion associated with the plantation South By placing African American histories and memories of slave breeding within the larger context of America s history of racial and gender discrimination the author reveals how sexual exploitation was both experienced and remembered by African Americans to inform how Black Americans understand the political social and cultural nature of life in the United States This fascinating provocative work sheds much needed light on African American cultural memories the perceptions of fragile Black families and the long history of racially motivated violence against men women and children of color
