Alien Wisdom The Limits Of Hellenization:

Alien Wisdom Arnaldo Momigliano, 1975 In this classic study of cultural confrontation Professor Arnaldo Momigliano looks at the attitude of the Greeks to four different civilizations the Roman Celtic Jewish and Persian and analyses their cultural and intellectual interactions from the fourth to the first centuries BC He argues that in the Hellenistic period the Greeks Romans and Jews formed a special exclusive relationship and effectively established what until recent times was the normal horizon of Western civilization

Alien Wisdom Arnaldo Momigliano, 1978 **Abraham as Spiritual Ancestor** Israel Kamudzandu, 2010-03-22 New Testament commentaries and exegetes have not paid sufficient attention to the context in which Paul's Epistle to the Romans was crafted This book written from an African perspective offers a fresh interpretation on a contextualizing reading of Romans and its theology The argument of the book is that Paul's construction of Abraham as a Spiritual ancestor of all faith people was based on his encounter with the Roman Ideology based on Aeneas as the founder of Rome A juxtaposition of these two canonical ancestors needs to be considered in our 21st multi ethnic Christian world Paul's epistle is not about how God saves the individual human being rather the debate between Paul and the Jewish Christian interlocutor is about how families of people and nations establish a kinship with God and one another The concern with ancestors is apaque to Western Biblical readers and Christians This is book helps both Westerners and Africans to value ethnic diversity

Judaism in late antiquity Jacob Neusner, 1995 **Memory in Jewish, Pagan and Christian Societies of the Graeco-Roman World** Doron Mendels, 2004-07-29 The ten studies in this book explore the phenomenon of public memory in societies of the Graeco Roman period Mendels begins with a concise discussion of the historical canon that emerged in Late Antiquity and brought with it the distorted memory of ancient history in Western culture The following nine chapters each focus on a different source of collective memory in order to demonstrate the patchy and incomplete associations ancient societies had with their past including discussions of Plato's Politeia a site of memory of the early church and the dichotomy existing between the reality of the land of Israel in the Second Temple period and memories of it Throughout the book Mendels shows that since the societies of Antiquity had associations with only bits and pieces of their past these associations could be slippery and problematic constantly changing multiplying and submerging Memories true and false oral and inscribed provide good evidence for this fluidity

Jewish Studies on Premodern Periods Carl S. Ehrlich, Sara R. Horowitz, 2023-05-22 This volume examines new developments in the fields of premodern Jewish studies over the last thirty years The essays in this volume written by leading experts are grouped into four overarching temporal areas the First Temple Second Temple Rabbinic and Medieval periods These time periods are analyzed through four thematic methodological lenses the social scientific history and society the textual texts and literature the material art architecture and archaeology and the philosophical religion and thought Some essays offer a comprehensive look at the state of the field while others look at specific examples illustrative of their temporal and thematic areas of inquiry The volume presents a

snapshot of the state of the field encompassing new perspectives directions and methodologies as well as the questions that will animate the field as it develops further It will be of interest to scholars and students in the field as well as to educated readers looking to understand the changing face of Jewish studies as a discipline advancing human knowledge **Tales of High Priests and Taxes** Sylvie Honigman,2021-03-16 In the wake of the conquests of Alexander the Great the ancient world of the Bible the ancient Near East came under Greek rule and in the land of Israel time old traditions met Greek culture But with the accession of King Antiochos IV the soft power of culture was replaced with armed conflict and soon the Jews rebelled against their imperial masters as recorded in the Biblical books of the Maccabees Whereas most scholars have dismissed the biblical accounts of religious persecution and cultural clash Sylvie Honigman combines subtle literary analysis with deep historical insight to show how their testimony can be reconciled with modern historical analysis by conversing with the biblical authors so to speak in their own language to understand the ways they described their experiences Honigman contends that these stories are not mere fantasies but genuine attempts to cope with the massacre that followed the rebellion by giving it new meaning This reading also discloses fresh political and economic factors 2007 Lectures Ron Johnston,2008-12-25 Volume 154 of the Proceedings of the British Academy contains 17 Lectures delivered at the British Academy in 2007 From commemoration of the American Civil War to an examination of our capacity as human beings to live in the world of imagination and the opportunities and challenges which face cultural institutions in Britain today

Founding Gods, Inventing Nations William F. McCants,2012 From the dawn of writing in Sumer to the sunset of the Islamic empire *Founding Gods Inventing Nations* traces four thousand years of speculation on the origins of civilization Investigating a vast range of primary sources some of which are translated here for the first time and focusing on the dynamic influence of the Greek Roman and Arab conquests of the Near East William McCants looks at the ways the conquerors and those they conquered reshaped their myths of civilization s origins in response to the social and political consequences of empire The Greek and Roman conquests brought with them a learned culture that competed with that of native elites The conquering Arabs in contrast had no learned culture which led to three hundred years of Muslim competition over the cultural orientation of Islam a contest reflected in the culture myths of that time What we know today as Islamic culture is the product of this contest whose protagonists drew heavily on the lore of non Arab and pagan antiquity McCants argues that authors in all three periods did not write about civilization s origins solely out of pure antiquarian interest they also sought to address the social and political tensions of the day The strategies they employed and the postcolonial dilemmas they confronted provide invaluable context for understanding how authors today use myth and history to locate themselves in the confusing aftermath of empire Empires Susan E. Alcock,2001-08-09 Empires the largest political systems of the ancient and early modern world powerfully transformed the lives of people within and even beyond their frontiers in ways quite different from other non imperial societies Appearing in all parts of the globe and in many

different epochs empires invite comparative analysis yet few attempts have been made to place imperial systems within such a framework This book brings together studies by distinguished scholars from diverse academic traditions including anthropology archaeology history and classics The empires discussed include case studies from Central and South America the Mediterranean Europe the Near East South East Asia and China and range in time from the first millennium BC to the early modern era The book organises these detailed studies into five thematic sections sources approaches and definitions empires in a wider world imperial integration and imperial subjects imperial ideologies and the afterlife of empires
