

THE INDUSTRIAL REVOLUTION

The Beginning

- Britain's population is around 5.700.000
- more production of machines made possible
- "Manufacturing Industry is the driver for technological"
- Increase of production: hand, steam, electricity

Why start in Britain for England?

Material Resources

- England's rich natural resources provided for industry
- coal... fueled the heat
- iron... as building materials
- water for energy power for transportation

The Agricultural Revolution

- crop rotation... fields with various seedlings for growing
- New mechanical farm tools... working faster and more efficiently than the previous old tools

Political Environment in Britain

- the rapid growth... opened market for exports
- the second half of political centralization in England
- government supports business
- the state used for political-political administration

Education

- education policy: the British Government was quickly established
- manufacturing by James Watson's patent machine
