A Spirit Of Progress Art Deco Architecture In Australia:

A Spirit of Progress Patrick van Daele, Roy Lumby, 1997 Until recently scorned or ignored by many historians and commentators Australia's Art Deco architecture of the 1920s and 1930s endures as a unique record of its time and a mirror of the hopes and aspirations of Australians in the years between the two world wars **A Spirit of Progress Art Deco Architecture in Australia** provides a valuable insight into this significant period in Australia's social economic and artistic development In his travels across Australia photographer Patrick Van Daele has captured the wealth that is Australia's Art Deco architecture From the corporate splendours of tall office buildings to the engineering marvels of great dams and the domestic style of the home the photographs mirror the achievement and the human aspect of the inter war era in this country They are illuminated by Roy Lumby's authoritative text which describes the history and development of this important style in Australia and the fascinating times in which it appeared **Art Deco** Michael Windover, 2012-12-13T00:00:00-05:00 This book argues that mobility is the central theme of the interwar mode of design known today as Art Deco It is present on the very surfaces of Art Deco objects and architecture in iconography and general formal qualities whether the zigzag rectilinear forms popular in the 1920s or curvilinear streamlining of the 1930s By focussing on mobility as a means of tying the seemingly disparate qualities of Art Deco together Michael Windover shows how the surface level expressions correspond as well with underpinning systems of mobility including those associated with migration transportation commodity exchange capital and communication Journeying across the globe from a skyscraper in Vancouver B C to a department store in Los Angeles and from super cinemas in Bombay Mumbai to radio cabinets in Canadian living rooms this richly illustrated book examines the reach of Art Deco as it affected public cultures Windover's innovative perspective exposes some of the socio political consequences of this mode of mobility and offers some reasons as to how and why Art Deco was incorporated into everyday lifestyles around the world [Australia](#) Harry Margalit, 2019-11-15 This book tells the story of the architects and buildings that have defined Australia's architectural culture since the founding of the modern nation through Federation in 1901 That year marked the beginning of a search for better city forms and buildings to accommodate the changing realities of Australian life and to express an emerging distinctive and eventually confident Australian identity While Sydney and Melbourne were the settings for many of the major buildings all states and territories developed architectural traditions based on distinctive histories and climates Harry Margalit explores the flowering of these many architectural variants from the bid to create a model city in Canberra through the stylistic battles that opened a space for modernism to the idealism of postwar reconstruction and beyond to the new millennium Australia reveals a vibrant and influential culture of the built environment at its best when it matches civic idealism with the sensuality of a country of stunning light and landscapes *World Architecture* , 1997 **Imhotep Today** Jean-Marcel Humbert, 2016-06-16 This book presents and analyses the results of the use and adaptation of ancient Egyptian architecture in modern times It traces the use of ancient Egyptian

motifs and constructions across the world from Australia the Americas and Southern Africa to Western Europe It also inquires into the cultural economic and social contexts of this practice Imhotep Today is exceptional not only in its global coverage but in its analyses of thorny questions such as what was it about Ancient Egypt that inspired such Egyptianizing monuments and was it just one idea or several different ones which formed the basis of such activities The book also asks why only certain images such as obelisks and sphinxes were incorporated within the movement The contributors explore how these monuments fitted into the local architecture of the time and in this context they investigate whether Egyptianizing architecture is an ongoing movement and if so how it differs from earlier similar activities *Australian Book Review* ,2002

Ghost Nation Laurie Duggan,2001 A vividly written account of Australia s visual arts from Federation through to the end of the Depression the period from which the modernist movement evolved Poet Laurie Duggan draws together areas of Australian cultural history which have formerly been treated through separate disciplines eg modernism and feminism

Contemporary Visual Arts ,1997 Essential Art Deco Ghislaine Wood,2003 Essential Art Deco captures the essence of the style which swept across the globe in the 1920s and 1930s altering the skyline of cities from Shanghai to Rio and adding an exotic vibrant edge to everything from cinema and fashion to ocean lines and automobiles Beautifully illustrated throughout the book explores the extraordinary visual language of the style Skilful juxtaposition of source material and iconic Deco pieces shows how designers borrowed from the exotic cultures of Ancient Egypt Meso America the oriental East and Africa and from the man made world of skyscrapers and machines developing in the process a new and highly distinctive iconography Images inspired by the natural world of plants and animals sunbursts and fountains contrast with the geometric forms of avant garde painting and design culminating eventually in the symbolic idiom of streamlining Deeply eclectic and highly decorative Art Deco was all about fantasy fun and glamour themes that are celebrated in this attractive book and which still strike a popular chord today **Austral Eden** Patrick Bingham-Hall,1999 This is a visual history of the best of Australian architecture from settlement to the end of the 20th century The book presents over 200 photographs of Australia s buildings from colonial architects such as Geenway Verge and Blackett to modern leaders such as DCM Durbach and Stutchbury
