Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture *Beginnings* Nuffield Mathematics Project, 19?? [The Cambridge Introduction to Edward Said](#) Conor McCarthy, 2010-07-22 One of the most famous literary critics of the twentieth century Edward Said's work has been hugely influential far beyond academia As a prominent advocate for the Palestinian cause and a noted music critic Said redefined the role of the public intellectual In his books as scholarly as they are readable he challenged conventional critical demarcations between disciplines His major opus *Orientalism* is a key text in postcolonial studies that continues to influence as well as challenge scholars in the field Conor McCarthy introduces the reader to Said's major works and examines how his work and life were intertwined He explains recurring themes in Said's writings on literature and empire on intellectuals and literary theory on music and on the Israel Palestine conflict This concise informative and clearly written introduction for students beginning to study Said is ideally set up to explain the complexities of his work to new audiences *The Ends of Theory* Jerry Herron, 1996 Featuring diverse disciplines and including creative as well as critical work *The Ends of Theory* both exemplifies the impact of critical theory and questions its future The sixteen essays in this

anthology reflect on the nature and purpose of theoretical work in the humanities and succeed in bridging critical and creative production Contributors include Arthur Danto Paul A Bov Bob Perelman and Steve McCaffery

A Permanent Beginning Yitzhak Lewis,2020-03-01 Situates a Hasidic master in the context of his time demonstrating his formative influence on Jewish literary modernity The Hasidic leader R Nachman of Braslav 1772 1810 has held a place in the Jewish popular imagination for more than two centuries Some see him as the self proclaimed Messiah others as the forerunner of modern Jewish literature Existing studies struggle between these dueling readings largely ignoring questions of aesthetics and politics in his work A Permanent Beginning lays out a new paradigm for understanding R Nachman s thought and writing and with them the beginnings of Jewish literary modernity Yitzhak Lewis examines the connections between imperial modernization processes in Eastern Europe at the turn of the eighteenth century and the emergence of modern literature in the storytelling of R Nachman Reading his tales and teachings alongside the social legal and intellectual history of the time the book s guiding question is literary How does R Nachman represent this changing environment in his writing Lewis paints a nuanced and fascinating portrait of a literary thinker and creative genius at the very moment his world was evolving unrecognizably He argues compellingly that R Nachman s narrative response to his changing world was a major point of departure for Jewish literary modernity This is a groundbreaking study There can be no doubt that it will constitute a basic work for understanding the theology and stories of R Nachman modern Judaism and modern literature in general Jonatan Meir author of Literary Hasidism The Life and Works of Michael Levi Rodkinson This book is a rare intellectual achievement Lewis addresses the question of Hasidism s modernity by analyzing key issues in the study of R Nachman such as the question of his Messianity His answers are thought provoking and convincing and his exciting book dramatically extends our understanding of the challenges posed by R Nachman s tales and mystical texts Hannan Hever Yale University Michael Carter,2003

The Sketch, the Tale, and the Beginnings of American Literature Lydia G. Fash,2020-03-31 Accounts of the rise of American literature often start in the 1850s with a cluster of great American novels Hawthorne s The Scarlet Letter Melville s Moby Dick and Stowe s Uncle Tom s Cabin But these great works did not spring fully formed from the heads of their creators All three relied on conventions of short fiction built up during the culture of beginnings the three decades following the War of 1812 when public figures glorified the American past and called for a patriotic national literature Decentering the novel as the favored form of early nineteenth century national literature Lydia Fash repositions the sketch and the tale at the center of accounts of American literary history revealing how cultural forces shaped short fiction that was subsequently mined for these celebrated midcentury novels and for the first novel published by an African American In the shorter works of writers such as Washington Irving Catharine Sedgwick Edgar Allan Poe and Lydia Maria Child among others the aesthetic of brevity enabled the beginning idea of a story to take the outsized importance fitted to the culture of beginnings Fash argues that these short forms with their ethnic exclusions and narrative innovations coached readers on

how to think about the United States past and the nature of narrative time itself Combining history print history and literary criticism this book treats short fiction as a vital site for debate over what it meant to be American thereby offering a new account of the birth of a self consciously national literary tradition
