McDowell, 2007-03-02 Star Wars is one of the most beloved movie series of all time and in this book John McDowell explores the many spiritual themes that weave throughout the six films From the Force to the dark side the issues discussed in the films have a moral and spiritual complexity that if paid attention to can help us better understand our place in the world and our relation to others and to God George Lucas the creator of Star Wars did not

intend for his films to be mere entertainment McDowell argues Rather he hoped his films would be used as a vehicle for moral education Star Wars Year By Year New Edition Kristin Bayer,Pablo Hidalgo,Daniel Wallace,Ryder

Star Wars on Trial: The Force Awakens Edition David Brin, Matthew Woodring Stover, 2015-11-03. Order in the Court: Star Wars, the most significant powerful myth of the twenty-first century or morally bankrupt military fantasy. Six films. Countless books. 20 billion in revenue. No one can question the financial value or cultural impact of the Star Wars film franchise. But has the impact been for the good? In Star Wars on Trial's courtroom, Droid Judge presiding, Star Wars stands accused of elitist politics and sexism, religious and ethical lapses, the destruction of literary science fiction and science fiction film, and numerous plot holes and logical gaps. Supported by a witness list of bestselling science fiction authors, David Brin for the prosecution and Matthew Woodring Stover for the defense debate these charges and more before delivering their closing statements. The verdict? That's up to you. Covering the films from A New Hope to The Force Awakens, Brin and Stover provide new forewords that explore the newest generation of Star Wars films and what JJ Abrams must do to live up to or redeem the franchise.

Theology and the Star Wars Universe Benjamin D. Espinoza, 2022-07-11. Scholars have been arguing for years that Star Wars is more than light sabers, Wookies, Millennium Falcons, and troubling familial relationships. Star Wars is an exciting space fantasy that we can explore from multiple academic perspectives such as philosophy and psychology. This volume adds to that conversation by asking what would it look like if we analyzed the Star Wars universe theologically. In *Theology and the Star Wars Universe*, contributors from various theological traditions take on this task by exploring the nature of the Force, the spiritual role of the Jedi, nonviolent and liberationist readings of the franchise, and the enduring power of hope. Written for the restless, curious academic but accessible to diehard fans, *Theology and the Star Wars Universe* is an exciting foray into the study of theology and popular culture.
