With additional emphasis placed on ergonomics and the reduction of repetitive lifting activities by the manufacturer, The X-Series meets an ever-growing need for lifting assistance.

Basic design features a manual foot pump operation to afford the opportunity of economical solutions to lifting problems. Electric/Hydraulic and Air/Hydraulic units are also available in most capacities.

CompacLifts™ are designed and manufactured to extend the work area of machine tool activities and production lines. They also increase productivity and reduce worker strain by positioning materials at optimum operating heights for worker efficiency.

X Series Lift Tables are available in five capacities, four table sizes and single or double scissors.

All Bishamon Lift Tables are designed and constructed for lifting applications under the toughest working conditions, offering years of trouble-free operation.
