Self Final —

I performed all tasks in a safe manner and was not at risk toward my patients and colleagues.

CI Final —

Patient does guard patients appropriately and requires cueing from therapist only 25% of the time. He is aware of protocol guidelines and will turn over the patient to the therapist if he is not comfortable with a situation. He places the patients and himself in areas which maximize his abilities to control appendages with stretching and manual and will use the hi-lo table to his advantage. He is safe with patients with complex conditions, such as stroke, and makes appropriate recommendations to the physician about assistive devices.
