

Banking Interviews Guide (Part I)

I. Intro

The Investment Banking (IB) interview process is highly competitive and designed to rigorously filter out potential candidates. Consequently, answering the behavioral, technical, and logical questions that are asked in the interview with proven answers that we provide is key to converting an interview into an offer.

The following IB interview guide is a comprehensive tool designed to cover every single aspect of the interview process, guiding you from the very beginning to the very end.

II. Common First Investment Banking Interview Questions: Crafting Your Story

1. Walk me through your background/resume

Dial-in a cohesive 90-second resume walkthrough that focuses on the positive and motivating factors behind every transition (school to job, job to better job, most recent job to grad school). Be deliberate. Every move you made should have a reason (preferably that you initiated). Don't be negative. Never say you left because you were bored or "wanted to try something new".

2. Why investment banking?

The answer to this question should be tailored uniquely to you and to the firm you are interviewing with. While answering this question, it is key to capitalize on your previous professional/leadership experience, highlight it and create a logical path as to why you are now trying to break into investment banking.

III. 15 Common Investment Banking Technical Questions

1. What are the three main financial statements?

Sample Answer:

The three main financial statements are:

- Income Statement
- Balance Sheet
- Statement of Cash Flows

The Income Statement discloses a company's revenues and expenses, which together yield net income over a period of time. The Balance Sheet discloses a company's assets, liabilities, and equity on a specific date. The Cash Flow Statement starts with net income from the Income Statement, then adjusts for non-cash expenses, non-operating expenses like capital expenditures, changes in working capital, or debt repayment and issuance, to arrive at the company's closing cash balance.

Answer Tip Highlight your interest in finance problem solving and the dynamic nature of banking. Sample I am passionate about finance and enjoy analysing markets managing risk and helping clients achieve their financial goals. Banking offers the opportunity to work in a fast paced environment where I can apply my skills and contribute to both individual and business growth. 2 Can you explain the different types of bank accounts? Answer Tip Demonstrate your understanding of common banking products. Sample There are several types of bank accounts checking accounts savings accounts money market accounts and certificates of deposit CDs. Checking accounts are used for daily transactions while savings accounts earn interest on deposits. Money market accounts offer higher interest rates but may have withdrawal limits. CDs lock funds for a fixed period in exchange for higher interest rates. 3 How do you stay informed about financial trends? Answer Tip Mention specific sources you rely on to stay updated. Sample I stay informed by regularly reading financial news from sources like Bloomberg The Wall Street Journal and CNBC. I

also follow market trends through financial reports and webinars from industry experts Additionally I use professional networks and attend financial conferences to stay ahead of industry developments

4 Describe a time you had to deal with a difficult customer Answer Tip Show your communication and problem solving skills Sample At my previous job I dealt with a customer who was upset about a bank charge I listened to their concerns remained calm and explained the bank's policy in detail After reviewing their account I found a way to waive the fee as a goodwill gesture which resolved the issue and retained the customer's business

5 What is the difference between a debit and a credit card Answer Tip Focus on key distinctions Sample A debit card allows users to spend money directly from their bank account while a credit card enables them to borrow money from the bank up to a certain limit and pay it back over time Debit cards don't incur debt whereas credit cards can impact your credit score and come with interest charges if the balance isn't paid off in full

6 How would you explain a financial product to someone with no banking experience Answer Tip Show your ability to communicate complex ideas simply Sample I would first find out their basic understanding of financial concepts and build from there For example to explain a loan I'd say A loan is when the bank lends you money to buy something and you agree to pay it back over time usually with some extra cost called interest The better your credit history the lower the interest you pay

7 How would you handle a situation where a customer's account shows discrepancies Answer Tip Show your attention to detail and customer service skills Sample I would first reassure the customer that I'll look into the issue Then I'd carefully review their account history identifying the cause of the discrepancy If it's a bank error I'd immediately correct it and ensure the customer is informed If it's something related to the customer's misunderstanding I'd explain the situation clearly and offer a solution

8 What do you know about Bank Name Answer Tip Do your research on the bank's history services and values Sample I know that Bank Name has been a leader in financial services for number of years and is known for its commitment to innovation and customer service I admire how the bank has expanded its digital offerings which align with today's evolving financial needs while still maintaining strong community involvement

9 How would you handle confidential information in your role Answer Tip Emphasize your understanding of the importance of confidentiality in banking Sample Confidentiality is critical in banking to protect both the bank and its clients I would follow the bank's policies and procedures such as ensuring that sensitive information is only shared with authorized individuals securing documents properly and avoiding discussions about client information in public or unsecured spaces

10 Tell me about a time you worked as part of a team Answer Tip Highlight your teamwork skills with a real life example Sample In my last job I worked with a team on a project to streamline our customer service process We collaborated by dividing tasks based on each person's strengths and regularly communicating progress By working together we reduced customer response times by 20% which improved customer satisfaction

11 How do you manage stress or handle multiple priorities Answer Tip Show your time management and stress management techniques Sample I prioritize my tasks by urgency and importance using tools like to do lists or project management software to stay

organized To handle stress I make sure to take short breaks stay focused on solutions rather than problems and keep a positive attitude I find that managing time efficiently and staying organized significantly reduces stress 12 What are some of the major challenges facing the banking industry today Answer Tip Show that you are aware of industry challenges and trends Sample Some major challenges include regulatory compliance cybersecurity threats and competition from fintech companies Banks also need to adapt to changing customer expectations such as the demand for faster digital services while ensuring they maintain strong security and data protection protocols Final Tips for Success Research Be familiar with the bank s services values and mission Show Enthusiasm Express your genuine interest in the role and the banking sector Prepare Your Own Questions Ask about growth opportunities the company culture or how the bank is adapting to changes in the industry

Investment Banking Interview Questions and Answers - English Navneet Singh, Preparing for an investment banking interview involves understanding both technical and behavioural questions Below are common categories of questions you may face along with sample answers to guide your preparation

1 Basic Finance Concepts Q What are the three main financial statements and how do they relate to each other A The three main financial statements are the Income Statement Balance Sheet and Cash Flow Statement The Income Statement shows a company s revenues expenses and profits over a period The Balance Sheet shows a company s assets liabilities and shareholders equity at a specific point in time The Cash Flow Statement reconciles the beginning and ending cash balances by outlining cash inflows and outflows from operating investing and financing activities These statements are interconnected For example net income from the Income Statement feeds into the Shareholders Equity section of the Balance Sheet retained earnings and it also flows into the top line of the Cash Flow Statement starting point for operating cash flows

2 Valuation Techniques Q Walk me through a discounted cash flow DCF analysis A In a DCF we project a company s free cash flows over a period typically 5 10 years discount them to the present value using the company s weighted average cost of capital WACC and then calculate the terminal value The two components discounted free cash flows and terminal value give the enterprise value EV Steps Project free cash flows for a set period Determine the terminal value using either the Gordon Growth Model or Exit Multiple Method Discount both the projected cash flows and the terminal value back to present value using WACC Add the discounted cash flows and terminal value to determine the company s enterprise value Q What are some other methods to value a company A Besides DCF common methods include Comparable Companies Analysis Comps Comparing valuation multiples of similar public companies Precedent Transactions Analysis Looking at valuation multiples paid in similar historical transactions Leveraged Buyout LBO Analysis Estimating what a private equity firm would pay leveraging a large portion of the purchase with debt

3 Market and Industry Questions Q What s happening in the market right now A Stay updated with current events like interest rate changes M A trends or economic reports e g inflation rates GDP For instance if interest rates are rising it might affect valuation by increasing the cost of debt and reducing DCF valuation Be prepared to discuss specific industries

relevant to the firm you're interviewing with

4 Accounting Knowledge

Q How does depreciation affect the financial statements

A Depreciation affects all three financial statements

- Income Statement** It reduces taxable income as an expense lowering net income
- Balance Sheet** It reduces the value of fixed assets PP E and is reflected in accumulated depreciation a contra asset account
- Cash Flow Statement** Depreciation is added back to operating cash flow because it is a non cash expense

Q What is goodwill and how is it treated in financial statements

A Goodwill arises when a company acquires another company for more than its fair value It is an intangible asset on the Balance Sheet Goodwill is not amortized but is tested for impairment annually If impaired the loss is recorded on the Income Statement reducing net income and assets

5 Behavioural and Fit Questions

Q Why do you want to work in investment banking

A Highlight a passion for finance analytical challenges and deal making

Example I'm drawn to investment banking because it offers a unique combination of strategic thinking and analytical rigor The fast paced environment and exposure to large transactions align with my long term goals of learning the intricacies of corporate finance and working on complex deals

Q Tell me about a time you worked in a team under pressure

A Use the STAR method

- Situation** Task Action Result
- Example** During my internship my team was tasked with completing a valuation for a client's acquisition target under a tight deadline I took the initiative to create detailed financial models dividing the tasks among the team and ensured we communicated effectively We delivered the analysis ahead of schedule impressing both the client and senior leadership

6 Technical Questions

Q What is EBITDA and why is it important

A EBITDA Earnings Before Interest Taxes Depreciation and Amortization is a proxy for a company's cash flow from operations It's important because it removes the impact of non cash items depreciation and amortization and financing decisions interest and taxes allowing investors to compare operational performance across companies

Q How would you value a company with negative earnings

A When a company has negative earnings methods like DCF and comparable multiples based on earnings may not be appropriate Instead you can use Revenue multiples EV Revenue Adjusted EBITDA multiples if the company has positive cash flow before interest taxes depreciation and amortization Asset based valuation particularly in distressed situations

7 Brain Teasers Problem Solving

Q How many gas stations are there in the U S

A This question is testing your ability to think logically

Example approach U S population is roughly 330 million Estimate there's 1 car for every 2 people 165 million cars Each car needs gas about once per week Assume a gas station serves 2 000 cars per week Divide 165 million by 2 000 around 82 500 gas stations

- 2 Why do you want to work in banking
Answer Banking offers the opportunity to work in a fast paced environment where I can apply my analytical and problem solving skills to help clients make informed financial decisions I am drawn to the strategic aspects of banking especially around investment lending or risk management and I want to be part of an industry that plays such a vital role in the economy The variety of roles and the learning opportunities within the industry are also very appealing to me
- 3 How do you stay updated on the financial markets
Answer I stay informed by reading financial publications like The Wall Street Journal Financial Times and Bloomberg I also follow major market indexes and trends such as those in emerging markets as well as economic reports from central banks Additionally I attend webinars and follow analysts and economists on platforms like LinkedIn and Twitter to get insights into current market conditions
- 4 What is the difference between retail banking and investment banking
Answer Retail banking provides services to individuals and small businesses such as savings accounts personal loans and mortgages Investment banking on the other hand caters to corporations governments and institutional clients by offering services like underwriting mergers and acquisitions and advisory on capital raising While retail banking focuses on personal financial management investment banking deals with large scale financial transactions and investments
- 5 Can you explain the concept of risk management in banking
Answer Risk management in banking involves identifying assessing and mitigating risks that could affect the bank s financial stability These risks include credit risk market risk operational risk and liquidity risk For example credit risk occurs when borrowers are unable to repay loans while market risk is related to fluctuations in interest rates or asset prices Banks use various tools and strategies such as diversification hedging and setting risk limits to manage these risks and protect their assets
- 6 How would you explain the difference between a balance sheet and an income statement
Answer A balance sheet provides a

snapshot of a company's financial position at a specific point in time showing assets, liabilities, and equity. The income statement, on the other hand, shows the company's performance over a period, detailing revenue, expenses, and profit or loss. While the balance sheet reflects the company's financial health, the income statement indicates its profitability over time.

7 What is Basel III? Answer: Basel III is an international regulatory framework developed to strengthen regulation, supervision, and risk management in the banking sector. It focuses on improving the quality of capital, increasing liquidity requirements, and reducing leverage to prevent excessive risk-taking by banks. Basel III was introduced in response to the 2008 financial crisis to ensure that banks have enough capital to withstand financial shocks.

8 How do interest rates affect banking operations? Answer: Interest rates have a direct impact on a bank's profitability. When interest rates rise, banks can charge higher rates on loans, increasing their revenue. However, higher rates can also reduce the demand for borrowing. On the other hand, lower interest rates can stimulate borrowing but may decrease the bank's profit margins on loans. Interest rates also affect the bank's cost of capital and the return on investments in interest-bearing assets like bonds.

9 What do you understand by the term capital adequacy ratio (CAR)? Answer: The Capital Adequacy Ratio (CAR) is a measure used by regulators to assess a bank's capital strength. It is the ratio of a bank's capital to its risk-weighted assets. A high CAR ensures that the bank can absorb a reasonable amount of loss and complies with statutory capital requirements. This ratio is crucial for maintaining the financial stability of banks, particularly during periods of economic stress.

10 What do you know about anti-money laundering (AML) regulations? Answer: Anti-money laundering (AML) regulations are designed to prevent criminals from disguising illegally obtained funds as legitimate income. In the banking sector, AML policies require banks to implement systems for detecting and reporting suspicious activities, conducting customer due diligence (Know Your Customer or KYC) processes, and maintaining records. Compliance with AML regulations is critical to prevent financial crimes and ensure that the banking system is not used for illicit purposes.

11 How would you handle a situation where a client disagrees with your financial advice? Answer: I would first ensure that I fully understand the client's concerns by asking questions and actively listening. I would then clarify my recommendations and provide additional information or examples to support my advice. If the client still disagrees, I will explore alternative solutions that align with their goals, making sure to keep the client's best interests at the forefront of the conversation. Open communication and flexibility are key in such situations.

12 Can you explain the importance of liquidity in banking? Answer: Liquidity is crucial for banks as it ensures they can meet their short-term obligations, such as deposit withdrawals and loan disbursements. Without adequate liquidity, a bank could face insolvency, even if it is profitable on paper. Banks manage liquidity through strategies like holding reserves, investing in liquid assets, and maintaining a balance between short-term liabilities and long-term loans. A liquidity crisis can lead to a loss of confidence among customers and investors, potentially leading to a bank run.

13 Where do you see yourself in five years in the banking industry? Answer: In five years, I see myself in a leadership role within a specific area of banking, e.g., corporate banking or risk
