

A New Pair Of Socks

William Harry P. Plomer

A New Pair Of Socks:

A New Pair of Socks Marianne Weaver, 2011-10 The loss of a child truly is one of the most tragic challenges anyone can encounter in life. If that child chose to take his or her life, the emotional turmoil for those left behind can be catastrophic. For those who have experienced the loss as a parent, family member, or friend, this book provides help, insight, hope on an unprecedented level. After losing her son to suicide, Marianne Weaver chose to dedicate the remainder of her life to help others cope with being directly or indirectly exposed to such a horrific loss. Giving a warm emotional blanket of understanding, a new perspective on how to take in all that surrounds you, even if you have never lost a child, the ending delivers such a powerful message that it will change some lives forever. With millions affected, it can help each of them knowing that the healing process progresses differently for everyone. It serves as a catalyst to help others get emotionally back on their feet, on either side of the coin, with a surprisingly optimistic outlook. **The Sock Knitter's Handbook** Beth Parrott, Charlene Schurch, 2012-03-20 Love knitting socks but sometimes hit a snag. Carry this handy answer book in your knitting bag. Well-known experts Charlene Schurch and Beth Parrott demystify all aspects of sock knitting. Find clear instructions for both toe-up and cuff-down sock knitting. Learn multiple techniques for knitting casting on and binding off, working heels and toes, making size adjustments, and more. Browse a stitch dictionary of favorite texture patterns, find options for creating your own unique socks. **The Early Reader in Children's Literature and Culture** Jennifer Miskec, Annette Wannamaker, 2015-12-22 This is the first volume to consider the popular literary category of Early Readers books written and designed for children who are just beginning to read independently. It argues that Early Readers deserve more scholarly attention and careful thought because they are for many younger readers their first opportunity to engage with a work of literature on their own, to feel a sense of mastery over a text and to experience pleasure from the act of reading independently. Using interdisciplinary approaches that draw upon and synthesize research being done in education, child psychology, sociology, cultural studies, and children's literature, the volume visits Early Readers from a variety of angles: as teaching tools, as cultural artifacts that shape cultural and individual subjectivity, as mass-produced products sold to a niche market of parents, educators, and young children, and as aesthetic objects, works of literature and art with specific conventions. Examining the reasons such books are so popular with young readers as well as the reasons that some adults challenge and censor them, the volume considers the ways Early Readers contribute to the construction of younger children as readers, thinkers, consumers, and as gendered, raced, classed subjects. It also addresses children's texts that have been translated and sold around the globe, examining them as part of an increasingly transnational children's media culture that may add to or supplant regional, ethnic, and national children's literatures and cultures. While this collection focuses mostly on books written in English and often aimed at children living in the US, it is important to acknowledge that these Early Readers are a major US cultural export influencing the reading habits and development of children across the globe. *The Crossing* Robert
