

Watch Faces

Customize your watch face

You can customize the Apple Watch face so it looks the way you want and provides the functions you need. Choose from a variety of watch face designs, adjust colors, features, and other details, then add it to your collection so you can switch when you need the right timekeeping tools—or whenever you'd like a change.

Change the watch face. With the watch face showing, firmly press the display, then swipe to see the faces in your collection. When you find the face you want, tap it.

You can add special functions—sometimes called complications—to your watch face, so you can instantly check things like stock prices or the weather report.

Add features to the watch face. With the watch face showing, firmly press the display, then tap **Customize**. Swipe to select a feature, then turn the Digital Crown to adjust. On some faces, you need to tap a feature to select it. When you're finished, press the Digital Crown to save your changes. Tap the face to switch to it. For more information about each watch face, see [Watch faces and features](#).

Press the display and tap **Customize**.

Turn the Digital Crown to adjust features.

Add a watch face to your collection. Assemble your own collection of custom faces—even different versions of the same design. With the current watch face showing, firmly press the display, swipe all the way to the right, then tap the **New** button (+). Swipe up and down to browse designs, then tap the one you want to add. After you add it, you can customize it.
