Applicable Law in International Investment Disputes Taida Begic, 2005 This book gives a comprehensive overview of all relevant aspects of the issue of applicable substantive law in the context of investor State arbitration It is a comparative survey of both the International Center for Settlement of Investment Disputes ICSID and non ICSID arbitral practice The applicable substantive law represents an important issue in investment disputes as it determines the rules of law that should be applied to the merits of the dispute This study demonstrates the need for a discussion on the applicable law before examining the merits of the case as it appears to be non existent in most arbitral awards The author gives an extensive survey of choice of law clauses as found in direct agreements between parties and in multilateral or bilateral investment treaties Furthermore the author analyzes the following issues stabilization clauses in investment agreements the application of the residual rule if parties failed to agree on the applicable law the special position of the Iran US Claims Tribunal and various annulment decisions

Applicable Law in Investor-State Arbitration Hege Elisabeth Kjos, 2013-03-21 This is an open access title available under the terms of a CC BY NC ND 3 0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations This book examines the law national and or international that arbitral tribunals apply on the merits to settle disputes between foreign investors and host states In light of the freedom that the disputing parties and the arbitrators have when designating the applicable law and because of the hybrid nature of legal relationship between investors and states there is significant interplay between the national and the international legal order in investor state arbitration The book contains a comprehensive analysis of the relevant jurisprudence legal instruments and scholarship surrounding arbitral practice with respect to the application of national law and international law It investigates the awards in which tribunals referred to consistency between the legal orders and suggests alternatives to the traditional doctrines of monism and dualism to explain the relationship between the national and the international legal order The book also addresses the territorialized or internationalized nature of the tribunals relevant choice of law rules and methodologies and the scope of the arbitration agreement including the possibility of host states presenting counterclaims in investment treaty arbitration Ultimately it argues that in investor state arbitration national and international law do not only coexist but may be applied simultaneously they are also interdependent each complementing and informing the other both indirectly and directly for a larger common good enforcement of rights and obligations regardless of their national or international origin

Public Health in International Investment Law and Arbitration

Valentina Vadi,2013 Is a State free to adopt measures to protect the public health of its citizens If so what are the limits if any to such regulatory powers This book addresses these questions by focusing on the clash between the regulatory autonomy of the state and international investment governance As a wide variety of state regulations allegedly aimed at protecting public health may interfere with foreign investments a tension exists between the public health policies of the host state and investment treaty provisions Under most investment treaties States have waived their sovereign immunity and have agreed to give arbitrators a comprehensive jurisdiction over what are essentially regulatory disputes Some scholars and practitioners have expressed concern regarding the magnitude of decision making power allocated to investment treaty tribunals This book contributes to the current understanding of international investment law and arbitration addressing the fundamental question of whether public health has and or should have any relevance in contemporary international investment law and policy With a focus on the clash of cultures between international investment law and public health the author critically analyses the emerging case law of investment treaty arbitration and considers the theoretical interplay between public health and investor rights in international investment law The book also explores the interplay between investment law and public health in practice focusing on specific sectors such as pharmaceutical patents tobacco regulation and environmental health It then goes on to analyze the available means for promoting consideration of public health in international investment law and suggests new methods and approaches to better reconcile public health and investor rights

International Investment, Political Risk, and Dispute Resolution Partner Noah Rubins QC, Thomas Nektarios Papanastasiou, Partner N Stephan Kinsella, 2019-09-18 The second edition of *International Investment Political Risk and Dispute Resolution* explores the multi-layered legal framework for the protection of foreign investment against political risk. The authors expertly analyse some of the key issues surrounding this subject such as structuring transactions to minimize political risk, political risk insurance, state responsibility, treaties protecting foreign investment and human rights and international arbitration between states and investors. Since the previous edition was released in 2005 far more attention has been paid to these issues in particular investor state arbitration as well as other current topics such as the interaction between international investment law and human rights. All chapters have been revised to take into account the number of new arbitration awards that have come to light and the massive volume of commentary on the subject of international investment arbitration since the first edition. The authors have carefully considered the latest theoretical approaches to foreign investment protection and the most intellectually challenging awards issued in the intervening decade as well as the most recent practical guidance on the procedural recourse available to investors who face political risks. Additionally this book contains a new chapter exploring the interaction between international investment law and the international human rights regime and considers whether there is a complementary or divergent result between competing fora. This book is addressed to a wide audience and is suitable as a primer for non-specialist practitioners seeking to familiarize themselves with international law pertaining to political risk. While appropriate for practitioner use this book is also suitable for undergraduate students or for graduates who intend to specialize in international investment law.
