A Mothers Love Baby Animals Around The World:

A Mother's Love Sophie Jones, 2012 *A Mother's Love* is the story of Monica Hill's struggle to become a mother. Monica and her husband Chris have tried several times to conceive but have been unsuccessful. They finally conceive and this time is more promising than ever but tragedy strikes again. The situation begins to take a toll on each of them and Monica begins to search for her true purpose in life. Through her self-examination she uncovers lies and deception that have surrounded her all along. Fate however offers her one more opportunity to become a mother but at a great cost. Will she take it? *A Mother's Love* will take you through Monica's winding journey to motherhood. Explore how love, lust, and life are intertwined in this very personal story. In true Sophie Jones fashion there are many twists and turns and the ending will leave you wanting more.

Nursery Earth: The Hidden World of Baby Animals and the Amazing Ingenuity of Life Danna Staaf, 2023-06-06 A first of its kind pop science journey into the hidden world of baby animals. Entire ecosystems rest on the shoulders or tentacles or jointed exoskeletons of animal babies. It's time we paid them more attention. In *Nursery Earth* researcher Danna Staaf invites readers to explore these tiny secret lives, revealing some of nature's strangest and most ingenious workings. A salamander embryo breathes with the help of algae inside its cells. The young grub of a Goliath beetle dwarfs its parents. Fluffy flamingo chicks delay turning pink for years to let adults know they're not mating rivals and to encourage friendly behavior. Our bias toward adult animals, not least because babies can be hard to find, means these wonders have long gone under-researched. But for all kinds of animals, if we overlook their babies we miss out on the most fascinating and consequential time in their lives. *Nursery Earth* makes the case that these young creatures are not just beings in progress but beings in their own right. Our planet needs them all the maggots as much as the kittens. *Berkshire World and Cornbelt Stockman*, 1920
