**African Elephant** Ina Felix, 2015-12-07 African Elephant Children Book of Fun Facts Amazing Photos on Animals in Nature A Wonderful African Elephant Book for Kids aged 3-7      **Communication and Conflict** Jörg Becker, 2005 Papers presented at various conferences and articles some previously published      *Monkey Business* Anna Wilson, 2012-09-20 For Felix and Flo animals are the NUMBER ONE TOP PRIORITY in life And although Felix loves his pets a lazy dog an angry cat and a noisy hamster what he really wants is the chance to look after an animal which is EXOTIC and DIFFERENT like an elephant or a monkey for instance So when he finds out from Flo that you can actually adopt your own animal via the MIRACLE OF THE INTERNET he is beside himself with excitement until he realises that this plan isn't as FOOLPROOF as it seems      Elephant Talk Ann Downer, 2017-01-01 Audisee eBooks with Audio combine professional narration and sentence highlighting for an engaging read aloud experience On a hot day in the African savannah a group of elephants searches for food While foraging they often lose sight of one another Yet at the end of the day in one coordinated movement the elephants suddenly regroup This coordinated movement and others like it has puzzled scientists and caused them to question how elephants communicate with each other Since the 1990s scientists have gathered significant data on elephant talk Biologists have determined that elephants use a complex system of communication of at least ten distinct sounds combined in many variations Researchers are now asking what do these sounds mean As scientists study the elephant sounds that humans can hear they are also identifying ways elephants communicate through nonverbal behaviors and making sounds too low for human ears Scientists have realized that elephants even receive messages by using their sensitive feet to feel vibrations in the ground All of these discoveries are helping elephant researchers better understand elephant behavior But the elephant's time as a wild animal is running out Threatened by habitat loss and illegally hunted for their ivory tusks elephants are on the brink of extinction Will understanding elephant talk be the key to saving the species      **Chambers's Encyclopaedia: Elephant-Gonzalvo di Cordova**, 1862      The Animated Bestiary Paul Wells, 2008-11-28 Cartoonists and animators have given animals human characteristics for so long that audiences are now accustomed to seeing Bugs Bunny singing opera and Mickey Mouse walking his dog Pluto The Animated Bestiary critically evaluates the depiction of animals in cartoons and animation more generally Paul Wells argues that artists use animals to engage with issues that would be more difficult to address directly because of political religious or social taboos Consequently and principally through anthropomorphism animation uses animals to play out a performance of gender sex and sexuality racial and national traits and shifting identity often challenging how we think about ourselves Wells draws on a wide range of examples from the original King Kong to Nick Park's Chicken Run to Disney cartoons such as Tarzan The Jungle Book and Brother Bear to reflect on people by looking at the ways in which they respond to animals in cartoons and films      *The Chimpanzees of Rubondo Island* Josephine Nadezda Msindai, Volker Sommer, 2022-10-05 How did a random batch of chimpanzees come to populate a small island in Tanzania

where apes had never lived before Combining information gathered from fieldwork laboratory and archival research this book tells the unique story of chimpanzee babies taken from their forest homes in West Central Africa and sold to European zoos and circuses to then be shipped to Lake Victoria and set free on Rubondo Island These founder animals learnt what to eat how to build nests to breed and raise young ultimately forming a chimpanzee typical fission fusion society that today is thriving The authors compare the ecology behaviour and genetics of the Rubondo population with communities of wild chimpanzees providing exciting insights into how our closest relatives adjust to changing environments At the same time a reconstruction of the historical context of the Rubondo experiment reflects on its chequered colonial heritage and the introduction is viewed against current threats to the survival of apes in their natural habitats The book will be of interest to scholars and professionals working in primatology animal behaviour conservation biology and postcolonial studies

Death's Social and Material Meaning beyond the Human Jesse D. Peterson,Natashe Lemos Dekker,Philip R.

Olson,2024-01-09 Death studies typically focus on the death of humans overlooking the wider factors involved in social and natural processes around death This edited volume provides an alternative focus for death studies by looking beyond human death to reveal the complex interconnections among human and more than human creatures entities and environments Bringing together a diverse range of international scholars the book sheds light on topics which have previously remained at the margins of contemporary death studies and death care cultures Organised around three themes Knowledge and Mediation Care and Remembrance and Agency and Power this book pushes the boundaries of death studies to explore death and dying from beyond the perspective of a nature culture binary     *The Flora of Algeria* William Mathews,1880     **Nature**
