in the woods Society has regressed to a way of life similar to the medieval age The novel is told in two parts The first details what s known of the fall of civilization while the second part follows the son of a baron as he sets off to explore beyond the kingdom he was born into Nature civilization violence poverty exploitation and exploration are major themes Richard Jefferies wrote the novel toward the end of his life It combines the nature writing he is traditionally known for with a fantastical science fiction setting making it an early example of post apocalyptic fiction The surreal exploration of the former site of London bears a striking resemblance to the aftermath of a nuclear explosion decades before the atomic bomb was created After London was an inspiration for William Morris who said absurd hopes curled around my heart as I read it Morris would go on to reference the pastoralism present in After London in his utopian novel News From Nowhere This book is part of the Standard Ebooks project which produces free public domain ebooks *Richard Jefferies, After London; or Wild England* Richard Jefferies,2017-04-28 A scholarly edition of a significant and exciting late Victorian science fiction novel Richard Jefferies After London is uncanny and intriguing an adventure story quest romance dystopia and Darwinian novel rolled into one but also a pioneering work of Victorian science fiction Imagining a mysterious natural catastrophe that plunges its people into a barbaric future Jefferies remarkable novel drowns and destroys London and depicts a challenging a Wild England dominated by nature and filled with evolved animals and devolved humans Of its time but also distinctively modern After London can in its uneasy expression of Victorian and post Victorian anxieties about industrial development urbanisation natural resources and climate be regarded as one of the first novels of the Anthropocene This new critical edition provides one of the earliest examples of a global catastrophe novel that is part of a flowering of nineteenth century science fiction It situates After London in a tradition of mid late Victorian texts that respond to the evolutionary theories of Charles Darwin and Alfred Russel Wallace and responds to a host of other key social political and cultural issues of the period Key Features Opens up readings that situate the text in relation to a range of literary cultural and biographical contexts including Jefferies life ideas and works Includes a chronology of Jefferies life a list of his key works a detailed scholarly introduction and appendices including the text of The Great Snow a catastrophe short story set in London and Alone in London both of which reveal his attitude to London urban life and the future of humanity *After London Or Wild England* Richard Jefferies,1885 *After London* Richard Jefferies,2012-11-19 After London can be seen as an early example of post apocalyptic fiction after some sudden and unspecified catastrophe has depopulated England the countryside reverts to nature and the few survivors to a quasi medieval way of life The book has two parts The first The Relapse into Barbarism is the account by some later historian of the fall of civilisation and its consequences with a loving description of nature reclaiming England fields becoming overrun by forest domesticated animals running wild roads and towns becoming overgrown the hated London reverting to lake and poisonous swampland The second part Wild England is largely a straightforward adventure set many years later in the wild landscape and society here too Jefferies was setting an example for the genre but

the opening section despite some improbabilities has been much admired for its rigour and compelling narrative After London Richard Jefferies, 2017-06-10 The meadows were green and so was the rising wheat which had been sown but which neither had nor would receive any further care Such arable fields as had not been sown but where the last stubble had been ploughed up were overrun with couch grass and where the short stubble had not been ploughed the weeds hid it Jefferies novel can be seen as an early example of post apocalyptic fiction After some sudden and unspecified catastrophe has depopulated England the countryside reverts to nature and the few survivors to a quasi medieval way of life The first part The Relapse into Barbarism is the account by some later historian of the fall of civilisation and its consequences with a loving description of nature reclaiming England The second part Wild England is an adventure set many years later in the wild landscape and society The book is not without its flaws but is redeemed by the quality of the writing particularly the unnervingly prophetic descriptions of the post apocalyptic city and countryside John Richard Jefferies 6 November 1848 14 August 1887 was an English nature writer noted for his depiction of English rural life in essays books of natural history and novels His childhood on a small Wiltshire farm had a great influence on him and provides the background to all his major works of fiction Jefferies's corpus of writings includes a diversity of genres and topics including *Bevis* 1882 a classic children's book and *After London* 1885 an early work of science fiction For much of his adult life he suffered from tuberculosis and his struggles with the illness and with poverty also play a role in his writing Jefferies valued and cultivated an intensity of feeling in his experience of the world around him a cultivation that he describes in detail in *The Story of My Heart* 1883 This work an introspective depiction of his thoughts and feelings on the world gained him the reputation of a nature mystic at the time But it is his success in conveying his awareness of nature and people within it both in his fiction and in essay collections such as *The Amateur Poacher* 1879 and *Round About a Great Estate* 1880 that has drawn most admirers Walter Besant wrote of his reaction on first reading Jefferies Why we must have been blind all our lives here were the most wonderful things possible going on under our very noses but we saw them not John Richard Jefferies he used the first name only during his childhood was born at Coate in the parish of Chiseldon near Swindon Wiltshire the son of a farmer James Lockett Jefferies 1816 1896 His birthplace and home is now a museum open to the public James Jefferies had the farm from his father John Jefferies who had been a London printer before returning to Swindon to run the family mill and bakery Richard's mother Elizabeth Gyde 1817 1895 always called Betsy was the daughter of John Jefferies's binder and manager
