Chinese Medicine European and Native American herbology nutrition psychotherapy and bodywork Melded together the profound principles buried in these systems become clearer and stronger and a new level of effectiveness becomes possible Healing and reorganization are accelerated and deepened physically emotionally and spiritually The result is transformation The result is radical healing Radical Healing harnesses nature s medicinals plants and other natural substances with commonsense essentials such as diet exercise and cleansing as well as the most profound principles of spiritual and psychological transformation In Dr Ballentine s synthesis illness is an opportunity for growth that can go far beyond recovery Through radical healing old habits and attitudes that supported the development of disease fall away to be replaced by the clarity that comes with a whole new way of being in the world Vodou Visions Sallie Ann Glassman,2014-08-30 This book introduces readers to Vodou s rich history powerful ancestors and vibrant spirits known as Lwa With more than one hundred breathtaking illustrations Vodou Visions reveals how to honor and invoke the Lwa with specific ceremonial offerings and litanies Using methods drawn from more than twenty years of practice Vodou priestess Sallie Ann Glassman shares purification and empowerment rituals for individuals communities homes and spiritual spaces **Cremation, Corpses and Cannibalism** Anders Kaliff, Terje Oestigaard, 2017-05-11 Death matters and the matters of death are initially and to a large extent the decaying flesh of the corpse Cremation as a ritual practice is the fastest and most optimal way of dissolving the corpse s flesh either by annihilation or purification or a combination Still cremation was not the final rite and the archaeological record testifies that the dead represented a means to other ends the flesh and not the least the bones have been incorporated in a wide range of other ritual contexts While human sacrifices and cannibalism as ritual phenomena are much discussed in anthropology archaeology has an advantage since the actual bone material leaves traces of ritual practices that are unseen and unheard of in the contemporary world As such this book fleshes out a broader and more coherent understanding of prehistoric religions and funeral practices in Scandinavia by focusing on cremation corpses and cannibalism **Secrets of Ayurvedic Massage** Atreya, 2000-06-27 A practical manual for the Western massage therapist **Tantra & Erotic Trance** John Ryan Haule, 2012 In Volume One of this study Outer Work we described managing our orgasmic response so as to cultivate erotic trance the altered state of consciousness that is the foundation of all Tantric activity and we used it to climb the diamond ladder of mystical ascent to a rung characterized by the management of overwhelming emotions Now in Volume Two Inner Work we turn our attention away from outer goals having to do with our physiology and our relation to society at large and its prescriptions to the much more subtle interior changes occurring in our consciousness Continuing our climb up the rungs of the diamond ladder we are introduced to the landscape of mysticism a topography whose several regions are each characterized by the mastery of a different psychological capacity Yoga gives us an interior ladder in the form of the subtle body that is comprised of the chakras each of which opens onto a distinctly different emotional realm In this work our feeling function becomes highly differentiated Tibetan mandala meditation

disciplines our imaginative capacity as we bring the heavenly palace of copulating gods and goddesses into being By cultivating emptiness we pare away our attachments to the memories that have been holding us back and the aspirations that narrow our future so that we can dwell in the present moment without the props of doctrine and method Passing beyond our personal self we are introduced to the divine oneness of the cosmos pulsing between accomplished union and the vision of that with which we are united We return from such ecstasy to live our temporal lives on two planes simultaneously as spiritual wayfarers

Aghor Medicine Ronald L. Barrett, 2008-03-04 For centuries the Aghori have been known as the most radical ascetics in India living naked on the cremation grounds meditating on corpses engaging in cannibalism and coprophagy and consuming intoxicants out of human skulls In recent years however they have shifted their practices from the embrace of ritually polluted substances to the healing of stigmatized diseases In the process they have become a large socially mainstream and politically powerful organization Based on extensive fieldwork this lucidly written book explores the dynamics of pollution death and healing in Aghor medicine Ron Barrett examines a range of Aghor therapies from ritual bathing to modified Ayurveda and biomedicines and clarifies many misconceptions about this little studied group and its highly unorthodox powerful ideas about illness and healing
