Lamb,2022-01-31 This book explores how social and territorial boundaries have influenced the approaches and practices of the South Africa Police Service SAPS By means of a historical analysis of South Africa this book introduces a new concept police frontierism which illuminates the nature of the relationships between the police policing and boundaries and can potentially be used for future case study research Drawing on a wealth of research this book examines how social and territorial boundaries strongly influenced police practices and behaviour in South Africa and how social delineations amplify and distort existing police prejudices against those communities on the other side of the boundary Focusing on cases of high density police operations public order policing and the recent policing of the COVID 19 lockdown this book argues that poor economic conditions combined with an increased militarisation of the SAPS and a decline in public trust in the police will result in boundaries continuing to fundamentally inform police work in South Africa This book will be of interest to scholars

**The Truth about Crime** Jean Comaroff, John L. Comaroff, 2016-12-05 In this book renowned anthropologists Jean and John L Comaroff make a startling but absolutely convincing claim about our modern era it is not by our arts our politics or our science that we understand ourselves it is by our crimes Surveying an astonishing range of forms of crime and policing from petty thefts to the multibillion dollar scams of too big to fail financial institutions to the collateral damage of war they take readers into the disorder of the late modern world Looking at recent transformations in the triangulation of capital the state and governance that have led to an era where crime and policing are ever more complicit they offer a powerful meditation on the new forms of sovereignty citizenship class race law and political economy of representation that have arisen To do so the Comaroffs draw on their vast knowledge of South Africa especially and its struggle to build a democracy founded on the rule of law out of the wreckage of long years of violence and oppression There they explore everything from the fascination with the supernatural in policing to the extreme measures people take to prevent home invasion drawing illuminating comparisons to the United States and United Kingdom Going beyond South Africa they offer a global criminal anthropology that attests to criminality as the constitutive fact of contemporary life the vernacular by which politics are conducted moral panics voiced and populations ruled The result is a disturbing but necessary portrait of the modern era one that asks critical new questions about how we see ourselves how we think about morality and how we are going to proceed as a global society

**Police Work and Identity** Andrew Faull, 2017-09-07 This is a book about the men and women who police contemporary South Africa Drawing on rich original ethnographical data it considers how officers make sense of their jobs and how they find meaning in their duties It demonstrates that the dynamics that lead to police abuses and scandals in transitional and neo liberalising regimes such as South Africa can be traced to the day to day experiences and ambitions of the average police officer It is about the stories they tell themselves about themselves and their social worlds and how these shape the order they produce through their work By focusing on police officers this book positions the individual in primacy over the organisation asking what policing looks like when motivated by

the pursuit of ontological security in precarious contexts It acknowledges but downplays the importance of police culture in determining officers attitudes and behaviour and reminds readers that most officers lives are entangled in and shaped by a range of social political and cultural forces It suggests that a job in the South African Police Service SAPS is primarily just that a job Most officers join the organisation after other dreams have slipped beyond reach their presence in the Service being almost accidental But once employed they re write their self narratives and enact carefully choreographed performances to ease managerial and public pressure and to rationalize their coercive practices In an era where evidence and what works reigns supreme and where cop culture is often deemed a primary socializing force this book emphasises how officers personal histories ambitions and vulnerabilities remain central to how policing unfolds on the street
