A Voice And Nothing More Short Circuits:

A Voice and Nothing More Mladen Dolar, 2006-02-03 A new philosophically grounded theory of the voice the voice as the lever of thought as one of the paramount embodiments of the psychoanalytic object Plutarch tells the story of a man who plucked a nightingale and finding but little to eat exclaimed You are just a voice and nothing more Plucking the feathers of meaning that cover the voice dismantling the body from which the voice seems to emanate resisting the Sirens song of fascination with the voice concentrating on the voice and nothing more this is the difficult task that philosopher Mladen Dolar relentlessly pursues in this seminal work The voice did not figure as a major philosophical topic until the 1960s when Derrida and Lacan separately proposed it as a central theoretical concern In *A Voice and Nothing More* Dolar goes beyond Derrida's idea of phonocentrism and revives and develops Lacan's claim that the voice is one of the paramount embodiments of the psychoanalytic object objet a Dolar proposes that apart from the two commonly understood uses of the voice as a vehicle of meaning and as a source of aesthetic admiration there is a third level of understanding the voice as an object that can be seen as the lever of thought He investigates the object voice on a number of different levels the linguistics of the voice the metaphysics of the voice the ethics of the voice with the voice of conscience the paradoxical relation between the voice and the body the politics of the voice and he scrutinizes the uses of the voice in Freud and Kafka With this foundational work Dolar gives us a philosophically grounded theory of the voice as a Lacanian object cause *Horrors of a Voice (object a)* Tristram Adams, 2024-07-11 This book reframes the Lacanian object a voice as a horrific register of alterity The object gaze has received as it does in Jacques Lacan's work more commentary than voice Yet recently voice has garnered interest from multiple disciplines The book intervenes in the Slovenian school's commentary of the object voice in terms of two questions audition and corporeality This intervention synthesizes psychoanalysis with recent theorizing of the horror of philosophy In this intervention the object a voice is argued to resonate in lacunae epistemological voids that evoke horror in the subject Biological and evolutionary perspectives on voice genre horror film and literature music videos close readings of Freudian and Lacanian case studies and textual analysis of ancient philosophy texts all contribute to an elucidation of the horrors of the object a voice Vox Exo **The Metaphysics of the Voice, digital original edition** Mladen Dolar, 2014-01-10 In this BIT the philosopher Mladen Dolar introduces a new philosophically grounded theory of the voice Dolar considers a Lacanian metaphysics of the voice developing Lacan's claim that the voice is one of the paramount embodiments of the psychoanalytic object *Sounding New Media* Frances Dyson, 2009-09-04 *Sounding New Media* examines the long neglected role of sound and audio in the development of new media theory and practice including new technologies and performance art events with particular emphasis on sound embodiment art and technological interactions Frances Dyson takes an historical approach focusing on technologies that became available in the mid twentieth century electronics imaging and digital and computer processing and analyzing the work of such artists as John Cage Edgard Var se Antonin Artaud and Char Davies She utilizes

sound's intangibility to study ideas about embodiment or its lack in art and technology as well as fears about technology and the so-called post-human. Dyson argues that the concept of immersion has become a path leading away from aesthetic questions about meaning and toward questions about embodiment and the physical. The result is an insightful journey through the new technologies derived from electronics imaging and digital and computer processing toward the creation of an aesthetic and philosophical framework for considering the least material element of an artwork: sound.

The Interior Landscapes of Breaking Bad Erin Bell, Cheryl D. Edelson, Will Gray, Matthew Paproth, 2019-05-03. Already acknowledged by Metacritic and the Guinness World Records as the highest rated series in the history of television, *Breaking Bad* has elicited an unprecedented amount of criticism. Writers both popular and academic, columnists as well as eager commenters have addressed every imaginable topic from the show's characterization and major scenes to fine details such as Walt's knack for picking up habits from those he kills and the symbolism inherent within the cars that characters own. This book considers another perspective, one relatively unexplored to date. By considering the series from the perspective of its interior spaces, two possibilities emerge. Firstly, the spaces become a tangible record of their characters' inner lives, one that provides something like an objective correlative or photographic negative of their thought processes and approach to the world. They provide more and richer ways to trace the course of character action and themes throughout the series. Secondly, *Breaking Bad*'s spaces are not simply acted upon or within; they interact with characters as well. Interpreted through the theories of Judith Butler, Michel de Certeau, and many others, the series' homes, labs, RVs, and elevators take on new significance. The collection plumbs the interior spaces of *Breaking Bad* from many angles. Ultimately, these diverse perspectives enrich an appreciation for the series and its innovative handling of interiors, both literal and metaphorical. They also suggest new ways of reading the series, ensuring it can continue to be explored by academics, students, and fans well into the future.

Developments in the Histories of Sexualities Chris Mounsey, 2013-04-11. *Developments in the Histories of Sexualities: In Search of the Normal 1600-1800* explores the oppositions created by the official exclusion of banned sexual practices and the resistance to that exclusion through widespread acceptance of those outlawed practices at an interpersonal level. At different times and in different places, state legislation sets up or tries to set up a normal by rejecting a particular practice or group of practices. Yet this normal is derogated by popular practice since the banned acts themselves are thought at the grassroots level to be normal. Among the events discussed in these essays are the Woods-Pirie trial, the Ladies of Llangollen, the popular acceptance of fops and mollies, and the press reaction to the discovery that James Allen was a woman who had lived successfully as a man, and Lavinia Edwards was a man who had made her living as a female prostitute. *Developments in the History of Sexualities* analyzes both the state language of bans and fiat about sexuality and the grassroots language which marks the acceptance of multiplicity in sexual practice. Contributors benefit from the accumulation of new evidence of attitudes towards sexual practice and they engage with a wide range of texts, including Ned Ward's *History of the Clubs*, Tobias

Smollett's Roderick Random Shakespeare's Taming of the Shrew and The Tempest Dryden's All for Love Anne Batten Cristall's Poetical Sketches Isaac de Benserade's Iphis et Iante and Alessandro Verri's Le Avventure di Saffo *Of Mice and Men* Nandita Batra, Vartan P. Messier, 2020-07-13 *Of Mice and Men* Animals in Human Culture is a book length collection of essays that examines human views of non human animals The essays are written by scholars from Australia East Asia Europe and the Americas who represent a wide range of disciplines in the Humanities and Social Sciences Addressing topics such as animal rights ecology anthropocentrism feminism animal domestication dietary restrictions and cultural imperialism the book considers local and global issues as well as ancient and contemporary discourses and it will appeal to readers with both general and specialized interests in the role played by animals in human cultures **The Poetics of Radical Hope in Abderrahmane Sissako's Film Experience** Olivier-Jean Tchouaffe, 2017-05-04 The Poetics of Radical Hope The Abderrahmane Sissako Experience communicates pieces of evidence that Sissako is the most talented and the most sophisticated filmmaker of his generation This imaginative excellence emanates from new aspirations to fashion an original African cinematic aesthetic for a politic of radical hope and creative adaptation Sissako's contribution extends to all aspects of the indigenous motion pictures industry to help rebuild the continent's cultural infrastructures and create intellectual and cultural spaces to mobilize narrative strategies to contribute in the making of potent African collectives Far from being abstract Sissako's logic of contribution resists facile reading and demands a direct and profound engagement with the text Sissako is one of the best filmmakers working today because his cinema constitutes a generative contribution to the contemporary production of African intelligibility This logic of contribution helps to better articulate the historical logics and practices of a continent in constant throes of situational emergencies The cinemas confront African colonial legacies to contemporary globalization discourses that grip the contemporary global condition notably political instability poverty illiteracy digital divide global warming and food shortages diseases and the so called clash of civilization *Virginia Woolf and the Age of Listening | Virginia Woolf à l'ère de l'écoute* Adèle Cassigneul, Anne-Marie Smith-Di Biasio, 2025-04-24 Listening was the spirit of the age as the invention of psychoanalysis and of radio marked the turn of the twentieth century Virginia Woolf and the Age of Listening brings together contributions which tune into that acoustic quality at once present in Woolf's time in her texts and in the readings which here echo those very listening techniques Indeed the listening mind as a reading surface for the receptivity and reconstruction of sound waves embodies a shift which informs the thinking of many chapters in this volume In their attention to listeners in the text and to those who make up the work of reception in both English and French these readings consider Woolf's oeuvre as an echo chamber reverberating with intertextual echoes in a multi layered representational network They form a constellation of answers to the call of the Age of Listening *Loading the Silence: Australian Sound Art in the Post-Digital Age* Linda Ioanna Kouvaras, 2016-05-13 The experimentalist phenomenon of noise as constituting art in much twentieth century music paradoxically reached its zenith in Cage's silent
