Active Experiences For Active Children Social Studies 2nd Edition:

Social Studies for Young Children Gayle Mindes, 2013-11-01 Social studies is at the heart of content in education and takes on society's best hopes for helping children become good citizens and winners in the global economy. In its comprehensive scope, *Social Studies for Young Children: Preschool and Primary Curriculum Anchor* fulfills the promise of social studies as an integrator of the knowledge and experiences of young children. Filled with strategies, activities, and resources, this book helps teachers develop a holistic, culturally relevant approach to social studies and social learning. It surveys the relevant state and national standards and offers essential guidance on how to integrate them into the curriculum while at the same time looking beyond the tests to foster young social scientists' development into critical thinkers and lifelong learners. Special features include children's literature to foster social studies understanding, digital media for teaching and learning, emphasis on cross-disciplinary synthesis.

Teaching Young Children Social Studies Gayle Mindes, 2006-09-30 By linking theory to practice with an emphasis on national and state standards, Head Start Performance Standards, No Child Left Behind, and IDEA, the authors coherently combine principles of child development and social studies content to create a solid program for preschool through grade three. The authors maintain the overriding idea throughout the *Teaching Young Children* series that strategies derived from knowledge of child development are used to teach content knowledge. It is this concern that makes this volume an excellent resource for teachers and parents. In addition to specific discussions of how to build and conduct a social studies curriculum, the work includes vignettes of teachers and children in the classroom, graphics illustrating concepts and methods, and matrices, charts, and tables to enhance understanding. The authors effectively intertwine social learning in young children and development of self-concept with the theme-based curriculum of the National Council for Social Studies, the principles of multicultural education, parent collaboration to support learning, and creating connections between classroom and community.

How to Work with Standards in the Early Childhood Classroom Carol Seefeldt, 2005 More and more teachers of young children are being asked to develop their curriculum according to standards. This essential resource will guide educators as they grapple with a plethora of issues, questions, and practices surrounding the use of standards in the early childhood classroom. Carol Seefeldt, well-known educator and bestselling author, offers teachers an overview of the standards movement, describes the status of standards in early education, presents the issues around the design and selection of standards, and provides practical strategies for effectively implementing standards with young children, preschool through the early primary grades. This book provides both the background knowledge and a working understanding of standards to help teachers successfully judge and select standards, design appropriate ways of using and working with standards, and develop appropriate assessment strategies. Illustrated with children's work, this how-to guide provides practical illustrations of how standards can be used to benefit early childhood classrooms, including many sample activities demonstrating how to work with standards in the separate
