Active Tectonics And Alluvial Rivers:

Active Tectonics and Alluvial Rivers Stanley Alfred Schumm, Jean François Dumont, John Millard Holbrook, 2000 Describes how rivers respond to active tectonics for graduate students consultants and academic researchers *Active Tectonics and Alluvial Rivers*, 2002

Active Tectonics and Alluvial Rivers Stanley Alfred Schumm, 2000 Using river characteristics such as sinuosity gradient and behavior to identify areas of active deformation can be of value in elucidating subsurface structure and in determining the cause of local flooding and problems of river stability of some of the world's great rivers such as the Mississippi Nile and Indus This volume will be of interest to graduate students consultants and academic researchers in geomorphology sedimentology and stratigraphy structural geology hydrology geophysics and geography Jacket

Active Tectonics National Research Council, Division on Engineering and Physical Sciences, Commission on Physical Sciences, Mathematics, and Applications, Geophysics Research Forum, Geophysics Study Committee, 1986-01-01 Over 250 000 people were killed in the Tangshan China earthquake of 1976 and other less active tectonic processes can disrupt river channels or have a grave impact on repositories of radioactive wastes Since tectonic processes can be critical to many human activities the Geophysics Study Committee Panel on Active Tectonics has presented an evaluation of the current state of knowledge about tectonic events which include not only earthquakes but volcanic eruptions and similar events This book addresses three main topics the tectonic processes and their rates methods of identifying and evaluating active tectonics and the effects of active tectonics on society

Response of Alluvial Rivers to Active Tectonics Shunji Ouchi, 1983

Rivers of India Shyam Kanhaiya, Saurabh Singh, Arohi Dixit, Atul Kumar Singh, 2024-03-01 This volume presents geological geographical environmental and agriculture related studies on rivers focusing on basins of the three geomorphic divisions of India i.e. peninsular India Indo Gangetic plain and extra peninsular India The book compiles data on both the small and large river systems of India the large rivers include Jhelum Ghaghara Narmada Son Krishna and Godavari and the small scale rain fed and groundwater fed rivers such as Gomti have been studied The chapters comprehensively provide assessments of geomorphological aspects river sediment supply clean water availability for human population groundwater recharge flood management and irrigation The information presented in this book will appeal to students teachers researchers and planners engaged in river development management and conservation

Drainage Basin Dynamics Pravat Kumar Shit, Biswajit Bera, Aznarul Islam, Sandipan Ghosh, Gouri Sankar Bhunia, 2022-01-01 This volume provides a versatile introduction to the study of drainage basin evolution morphology drainage basin hydrology and sedimentology human interference natural and anthropogenic hazards and various management techniques This book offers the responsible factors of sediment yield and their absolute and specific growth and rate of delivery through tributaries to the main streams Rivers are important geomorphic agents which reflect an amazing variety of form and behaviour showing the wide range of natural environment in which they are originated The drainage system evolution and spatial network development within the

dynamic nature are being discussed and how they are adjusted in the geomorphic time scale over the millions of years This book shows how drainage systems function and react to change and why this thoughtful is required for flourishing integrated basin management In tropical and sub tropical countries population pressures as well as different developmental projects are being executed on the drainage basin without proper planning Today scientists consider drainage basin as an administrative unit during implementation of regional projects In this context this book will carry a bench mark for scholars and young scientists
