Adolescent Portraits Identity Relationships And Challenges 7th Edition:

Negotiating Privilege and Identity in Educational Contexts Adam Howard, Brianne Wheeler, Aimee

Polimeno, 2014-06-05 Recent efforts emphasize the roles that privilege and elite education play in shaping affluent youths identities Despite various backgrounds the common qualities shared among the eight adolescents showcased in this book lead them to form particular understandings of self others and the world around them that serve as means for them to negotiate their privilege These self understandings are crucial for them to feel more at ease with being privileged foster a positive sense of self and reduce the negative feelings associated with their advantages thus managing expectations for future success Offering an intimate and comprehensive view of affluent adolescents inner lives and understandings Negotiating Privilege and Identity in Educational Contexts explores these qualities and provides an important alternative perspective on privilege and how privilege works The case studies in this volume explore different settings and lived experiences of eight privileged adolescents who influenced by various sources actively construct and cultivate their own privilege Their stories address a wide range of issues relevant to the study of adolescence and the various social class factors that mediate adolescents educational experiences and identities

Mixed Andrew Garrod, Christina Gómez, Robert Kilkenny, 2013-11-29 Mixed presents engaging and incisive first person experiences of what it is like to be multiracial in what is supposedly a postracial world Bringing together twelve essays by college students who identify themselves as multiracial this book considers what this identity means in a reality that occasionally resembles the post racial dream of some and at other times recalls a familiar world of racial and ethnic prejudice Exploring a wide range of concerns and anxieties aspirations and ambitions these young writers who all attended Dartmouth College come from a variety of racial ethnic and socioeconomic backgrounds Unlike individuals who define themselves as having one racial identity these students have lived the complexity of their identity from a very young age In Mixed a book that will benefit educators students and their families they eloquently and often passionately reveal how they experience their multiracial identity how their parents race or ethnicity shaped their childhoods and how perceptions of their race have affected their relationships

future studies or in practice Filled with a wealth of resources and suggestions for further reading this book is an ideal supplementary text suitable for students taking undergraduate and postgraduate courses on developmental psychology family psychology and child clinical psychology This book may also be helpful for those taking undergraduate and postgraduate courses on social work counselling education studies and family studies

Growing Up Muslim Andrew Garrod, Robert Kilkenny, 2014-04-11 While 9 11 and its aftermath created a traumatic turning point for most of the writers in this book it is telling that none of their essays begin with that moment These young people were living probing and shifting their Muslim identities long before 9 11 I've heard it said that the second generation never asks the first about its story but nearly all the essays in this book include long intimate portrayals of Muslim family life often going back generations These young Muslims are constantly negotiating the differences between families for whom faith and culture were matters of honor and North America's youth culture with its emphasis on questioning exploring and inventing one's own destiny from the Introduction by Eboo Patel In *Growing Up Muslim* Andrew Garrod and Robert Kilkenny present fourteen personal essays by college students of the Muslim faith who are themselves immigrants or are the children of immigrants to the United States In their essays the students grapple with matters of ethnicity religious prejudice and misunderstanding and what is termed Islamophobia The fact of 9 11 and subsequent surveillance and suspicion of Islamic Americans particularly those hailing from the Middle East and the Asian Subcontinent have had a profound effect on these students their families and their communities of origin

Dealing with Dying, Death, and Grief during Adolescence David E. Balk, 2014-02-18 For some life's introduction to death and grief comes early and when it does it can take many forms Not only does *Dealing with Dying Death and Grief during Adolescence* tackle them all it does so with David Balk's remarkable sensitivity to and deep knowledge of the pressures and opportunities adolescents face in their transition from childhood to adulthood In seamless jargon free language Balk brings readers up to date with what we know about adolescent development because over time such changes form the backstory we need to comprehend the impact of death and bereavement in an adolescent's life The book's later chapters break down the recent findings in the study of life threatening illness and bereavement during adolescence And crucially these chapters also examine interventions that assist adolescents coping with these difficulties Clinicians will come away from this book with both a grounded understanding of adolescent development and the adolescent experience of death and they'll also gain specific tools for helping adolescents cope with death and grief on their own terms For any clinician committed to supporting adolescents facing some of life's most difficult experiences this integrated up to date and deeply insightful text is simply the book to have David E Balk is professor in the department of health and nutrition sciences at Brooklyn College CUNY where he directs the graduate program in thanatology He is the author of *Adolescent Development Early Through Late Adolescence* *Helping the Bereaved College Student* and several other books on death and bereavement He is also co editor of the 2nd edition of the *Handbook of Thanatology* Routledge 2013

I Am Where I Come From

Andrew C. Garrod, Robert Kilkenny, Melanie Benson Taylor, 2017-04-25 The organizing principle for this anthology is the common Native American heritage of its authors and yet that thread proves to be the most tenuous of all as the experience of indigeneity differs radically for each of them While many experience a centripetal pull toward a cohesive Indian experience the indications throughout these essays lean toward a richer more illustrative panorama of difference What tends to bind them together are not cultural practices or spiritual attitudes per se but rather circumstances that have no exclusive province in Indian country that is first and foremost poverty and its attendant symptoms of violence substance abuse and both physical and mental illness Education plays a critical role in such lives many of the authors recall adoring school as young people as it constituted a place of escape and a rare opportunity to thrive While many of the writers do return to their tribal communities after graduation ideas about home become more malleable and complicated from the Introduction I Am Where I Come From presents the autobiographies of thirteen Native American undergraduates and graduates of Dartmouth College ten of them current and recent students Twenty years ago Cornell University Press published First Person First Peoples Native American College Graduates Tell Their Life Stories also about the experiences of Native American students at Dartmouth College I Am Where I Come From addresses similar themes and experiences but it is very much a new book for a new generation of college students Three of the essays from the earlier book are gathered into a section titled Continuing Education each followed by a shorter reflection from the author on his or her experience since writing the original essay All three have changed jobs multiple times returned to school for advanced degrees started and increased their families and along the way continuously revised and refined what it means to be Indian The autobiographies contained in I Am Where I Come From explore issues of native identity adjustment to the college environment cultural and familial influences and academic and career aspirations The memoirs are notable for their eloquence and bravery
