Android Apps For Absolute Beginners 3rd Edition By Jackson Wallace 2014 Paperback:

Android Apps for Absolute Beginners Wallace Jackson, 2014-08-28 Anybody can start building multimedia apps for the Android platform and this book will show you how. Now updated to include both Android 4.4 and the new Android L, Android Apps for Absolute Beginners Third Edition takes you through the process of getting your first Android apps up and running using plain English and practical examples. If you have a great idea for an Android app but have never programmed before, then this book is for you. This book cuts through the fog of jargon and mystery that surrounds Android apps development and gives you simple step by step instructions to get you started. Teaches Android application development in a language anyone can understand, giving you the best possible start in Android development. Provides simple step by step examples that make learning easy, allowing you to pick up the concepts without fuss. Offers clear code descriptions and layout so that you can get your apps running as soon as possible. This book covers both Android 4.4 KitKat and Android L but is also backwards

compatible to cover the previous Android releases since Android 1.5. **Pro Android Wearables** Wallace Jackson, 2015-07-07 Pro Android Wearables details how to design and build Android Wear apps for new and unique Android wearable device types such as Google Android smartwatches which use the new WatchFaces API as well as health monitoring features and other cool features such as altimeters and compasses. It's time to take your Android 5 Wear application development skills and experience to the next level and get exposure to a whole new world of hardware. As smartwatches continue to grab major IoT headlines, there is a growing interest in building Android apps that run on these wearables which are now being offered by dozens of major manufacturers. This means more revenue earning opportunity for today's indie app developers. Additionally, this book provides new media design concepts which relate to using media assets as well as how to optimize Wear applications for low power single core, dual core or quad core CPUs and how to use the IntelliJ Android Studio IDE and the Android device emulators for popular new wearable devices.

HTML5 Quick Markup Reference Wallace Jackson, 2016-06-22 This book is a condensed reference for HTML5 markup. It presents the essential HTML5 elements and attributes in a well organized format that can be used as a handy reference.
