If Nietzsche Were a Narwhal Justin Gregg, 2022-08-09 This funny extraordinary and thought provoking *The Wall Street Journal* book asks whether we are in fact the superior species As it turns out the truth is stranger and far more interesting than we have been led to believe If Nietzsche Were a Narwhal overturns everything we thought we knew about human intelligence and asks the question would humans be better off as narwhals Or some other less brainy species There s a good argument to be made that humans might be a less successful animal species precisely because of our amazing complex intelligence All our unique gifts like language math and science do not make us happier or more successful evolutionarily speaking than other species Our intelligence allowed us to split the atom but we ve harnessed that knowledge to make machines of war We are uniquely susceptible to bullshit though cuttlefish may be the best liars in the animal kingdom our bizarre obsession with lawns has contributed to the growing threat of climate change we are sexually diverse like many species yet stand apart as homophobic and discriminate among our own as if its natural which it certainly is not Is our intelligence more of a curse than a gift As scientist Justin Gregg persuasively argues there s an evolutionary reason why human intelligence isn t more prevalent in the animal kingdom Simply put non human animals don t need it to be successful And miraculously their success arrives without the added baggage of destroying themselves and the planet in the process In

seven mind bending and hilarious chapters Gregg highlights one feature seemingly unique to humans our use of language our rationality our moral systems our so called sophisticated consciousness and compares it to our animal brethren Along the way remarkable tales of animal smarts emerge as you ll discover A dazzling delightful read on what animal cognition can teach us about our own mental shortcomings Adam Grant The house cat who s better at picking winning stocks than actual fund managers Elephants who love to drink Pigeons who are better than radiologists at spotting cancerous tissue Bumblebees who are geniuses at teaching each other soccer What emerges is both demystifying and remarkable and will change how you look at animals humans and the meaning of life itself San Francisco Chronicle bestseller BOOKRIOT Best Books of the Year Next Big Idea Book Club Best Science Books of the Year I love the book and everyone should read it Ryan Holiday Undeniably entertaining TheNew York Times The Whole Animal Corinna Chong,2023-05-02 A refreshingly original debut collection of short stories that grapple with the self alienation and self discovery that make us human For fans of Souvankham Thammavongsa Lynn Coady and Lisa Moore comes a striking debut collection of short stories that explore bodies both human and animal our fascination with their strange effluences growths and protrusions and the dangerous ways we play with their power to inflict harm on ourselves and on others Throughout The Whole Animal flawed characters wrestle with the complexities of relationships with partners parents children and friends as they struggle to find identity belonging and autonomy Bodies are divided often elusive even grotesque In Porcelain Legs a pre teen fixes on the long thick hair growing from her mother s eyelid In Wolf Boy Saturday a linguist grasps for connection with a young boy whose negligent upbringing has left him unable to speak In Butter Buns a college student sees his mother in a new light when she takes up body building With strange juxtapositions beguiling dark humour and lurid imagery The Whole Animal illuminates the everyday experiences of loneliness and loss of self alienation and self discovery that make us human This publication meets the EPUB Accessibility requirements and it also meets the Web Content Accessibility Guidelines WCAG AA It is screen reader friendly and is accessible to persons with disabilities A Simple book with few images which is defined with accessible structural markup This book contains various accessibility features such as alternative text for images table of contents page list landmark reading order and semantic structure Popular Mechanics ,1935-08 Popular Mechanics inspires instructs and influences readers to help them master the modern world Whether it s practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle Wildlife Threat Management Jasper Quincy,AI,2025-05-02 Wildlife Threat Management provides a comprehensive guide to safely navigating encounters with large mammals in adventure zones emphasizing proactive strategies for risk management and coexistence This book underscores the importance of techniques like effective noise deterrents strategic camp placement and meticulous scent reduction in minimizing human wildlife conflict For example the book explores how improper scent management can inadvertently attract animals leading to potentially dangerous situations

and how understanding animal behavior is crucial for effective deterrent use By drawing from wildlife biology conservation and risk management the book advocates for a shift from reactive often lethal methods to preventative measures that protect both people and animals It presents information in an accessible style suitable for park rangers wildlife guides outdoor enthusiasts and anyone venturing into wildlife habitats Examining psychological factors influencing human animal interactions the book systematically builds across chapters on noise deterrents camp placement and scent reduction protocols offering practical applications in diverse environments

A Critical Cinema 4 Scott MacDonald, 2005 A Critical Cinema 4 is the fourth volume in Scott MacDonald's Critical Cinema series the most extensive in depth exploration of independent cinema available in English In this new set of interviews MacDonald once again engages filmmakers in detailed discussions of their films and of the personal experiences and political and theoretical currents that have shaped their work The interviews are arranged to express the remarkable diversity of modern independent cinema and the network of interconnections within the community of filmmakers A Critical Cinema 4 includes the most extensive interview with the late Stan Brakhage yet published a conversation with P Adams Sitney about his arrival on the New York independent film scene a detailed discussion with Peter Kubelka about the experience of making *Our African Journey* a conversation with Jill Godmilow and Harun Farocki on modern political documentary Jim McBride's first extended published conversation in thirty years a discussion with Abigail Child about her evolution from television documentarian to master editor and the first extended interview with Chuck Workman This volume also contains discussions with Chantal Akerman about her place trilogy Lawrence Brose on his examination of Oscar Wilde's career Hungarian Peter Forgács about his transformation of European home movies into video operas Iranian born Shirin Neshat on working between two cultures and Ellen Spiro about exploring America with her video camera and her dog Each interview is supplemented by an introductory overview of the filmmaker's contributions A detailed filmography and a selected bibliography complete the volume

Animal Lessons Kelly Oliver, 2009 Philosophy reads humanity against animality arguing that man is man because he is separate from beast Deftly challenging this position Kelly Oliver proves that in fact it is the animal that teaches us to be human Through their sex their habits and our perception of their purpose animals show us how not to be them This kinship plays out in a number of ways We sacrifice animals to establish human kinship but without the animal the bonds of brotherhood fall apart Either kinship with animals is possible or kinship with humans is impossible Philosophy holds that humans and animals are distinct but in defending this position the discipline depends on a discourse that relies on the animal for its very definition of the human Through these and other examples Oliver does more than just establish an animal ethics She transforms ethics by showing how its very origin is dependent upon the animal Examining for the first time the treatment of the animal in the work of Heidegger Merleau-Ponty Derrida Agamben Freud Lacan and Kristeva among others *Animal Lessons* argues that the animal bites back thereby reopening the question of the animal for philosophy
