Business Analysis and Valuation: Using Financial Statements Krishna G. Palepu, Paul M. Healy, Sue Wright, Michael Bradbury, Jeff Coulton, 2020-09-24 The only local text in the market Business Analysis and Valuation provides a framework for understanding and using financial statements for business students and practitioners Developed specifically for students undertaking accounting valuation subjects the text is unique in its approach which introduces and develops a framework for business analysis and valuation using financial statement data then shows how to apply this framework to a variety of decision contexts All chapters of this edition have been updated to include the latest regulations practices and examples from both the financial markets and research Industry insights from practitioners and other experts have been added to each chapter giving students a practical real life understanding of how the content they are learning translates to the workplace With an increased number of real business Asia Pacific case studies exploring various issues including a running chapter example and references to recent research in this field the text offers local context and a practical and in depth approach

The Economics of Business Valuation Patrick Anderson, 2013-04-10 For decades the market asset and income approaches to business valuation have taken center stage in the assessment of the firm This book brings to light an expanded valuation toolkit consisting of nine well defined valuation principles hailing from the fields of economics finance accounting taxation and management It ultimately argues that the value functional approach to business valuation avoids most of the shortcomings of its competitors and more correctly matches the actual motivations and information set held by stakeholders Much of what we know about corporate finance and mathematical finance derives from a narrow subset of firms publicly traded corporations The value functional approach can be readily applied to both large firms and companies that do not issue publicly traded stocks and bonds cannot borrow without constraints and often rely upon entrepreneurs to both finance and manage their operations With historical side notes from an international set of sources and real world exemplars that run throughout the text this book is a future facing resource for scholars in economics and finance as well as the academically minded valuation practitioner

Mergers, Acquisitions, and Other Restructuring Activities Donald DePamphilis, 2005-08-23 Dr Donald DePamphilis explains the real world of mergers acquisitions and restructuring based on his academic knowledge and personal experiences with over 30 such deals himself The 77 case studies span every industry and countries and regions worldwide show how deals are done rather than just the theory behind them including cross border transactions New additions to the third edition 17 new cases with all 77 cases updated Glossary real options applications projecting growth rates Practical real world approach with 77 case studies from around the globe
