Action Learning In Practice Action Learning In Practice:

Action Learning in Practice Mr Mike Pedler, 2012-10-01 Previous editions of Action Learning in Practice established this authoritative overview of action learning around the world. Over the last decade the move towards action based organizational learning and development has accelerated and action learning is now an established part of the education and development mainstream in large and small organizations. Fully revised and updated this fourth edition covers the origins of action learning with Reg Revans' ideas and looks at their development and application today. Action learning is self directed learning through tackling business and work problems with the support of peers and colleagues. A professional and diverse workforce attracted, influenced and developed in this way is more able to deal effectively with the growing complexity and pressures of working life. As the limits of conventional training and development become more obvious, leaders are increasingly attracted to action based approaches to learning when seeking better outcomes and returns on investment.

Action Learning in Practice Mike Pedler, 1997 Fully revised and updated this third edition of Action Learning in Practice covers the origins of Reg Revans's ideas and looks at their development and application today. Over the last decade the move towards action based organisational training and development has accelerated and action learning is now an established part of the education and development mainstream in large and small organisations. Mike John Pedler, 2011 **Understanding Action Learning** Judy O'Neil, Victoria J. Marsick, 2007-07-11 As much as adult learners can absorb in a classroom they learn and retain a lot more on the job. Action Learning or AL can be based on any of several different schools of thought and there is much debate as to which is ideal. The authors advocate tailoring the best attributes of each approach to the specific purpose and the learning environment. Drawing on theory from Self Directed Learning, Learning from Experience and Transformative Learning, Understanding Action Learning enables the reader to make an informed decision about which approach or combination to use in his or her organization and provides a theoretical model that explains the different approaches to AL and a framework for identifying which approach to use. A focus on co design in creating Action Learning programs, practical tools, assessments and exercises, illuminating stories and case studies from the field. Combining top shelf research with real world experience, Understanding Action Learning is a crucial resource for adult educators everywhere. Facilitating Action Learning: A Practitioner'S Guide Pedler, Mike, Abbott, Christine, 2013-01-01

Action Learning is based on the simple idea that leaders and managers learn best by working together in a group, helping each other find solutions to real work problems through discussions. Facilitating Action Learning is a clear, concise and straightforward guide to this well established leadership and management development technique. *Action Learning for Managers* Mr Mike Pedler, 2012-09-01 Action Learning for Managers is a clear, concise and straightforward guide to this well established approach to problem solving and learning in groups that enables change in individuals, teams, organisations and systems.
