National Research Council, Institute of Medicine, Institute for Laboratory Animal Research, Commission on Life Sciences, Committee on the Use of Laboratory Animals in Biomedical and Behavioral Research, 1988-02-01 Scientific experiments using animals have contributed significantly to the improvement of human health Animal experiments were crucial to the conquest of polio for example and they will undoubtedly be one of the keystones in AIDS research However some persons believe that the cost to the animals is often high Authored by a committee of experts from various fields this book discusses the benefits that have resulted from animal research the scope of animal research today the concerns of advocates of animal welfare and the prospects for finding alternatives to animal use The authors conclude with specific recommendations for more consistent government action *Raised by Animals* Jennifer L. Verdolin, 2023-09-22 When it comes to family matters do humans know best Leading animal behaviorist Dr Jennifer Verdolin argues otherwise in this eye opening book Welcome to the wild world of raising a family in the animal kingdom sometimes shocking often ingenious Every species can surprise us Chimps have a knack for minimizing temper tantrums and owl chicks have a remarkable gift for sharing A prairie vole knows exactly when his stressed out partner needs a massage And anyone who considers reptiles cold blooded should consider the caecilian a snakelike animal from Kenya After laying eggs the mother grows a fatty layer of skin

which her babies eat after hatching not one of the book's many lessons from the wild to be tried at home Along the way Verdolin challenges our often counterproductive beliefs about what families ought to be like and how we should feel By finding common ground with our furry feathered and even slimy cousins we can gain new insight on what natural parenting really means and perhaps do a better job of forgiving ourselves for those days when we're only human

Wild Animal Neighbors Ann Downer, 2017-01-01 What would you do if you found an alligator in your garage Or if you spotted a mountain lion downtown In cities and suburbs around the world wild creatures are showing up where we least expect them Not all of them arrive by accident and some are here to stay As the human population tops seven billion animals are running out of space Their natural habitats are surrounded and sometimes even replaced by highways shopping centers office parks and subdivisions The result A wildlife invasion of our urban neighborhoods What kinds of animals are making cities their new home How can they survive in our ecosystem of concrete steel and glass And what does their presence there mean for their future and ours Join scientists activists and the folks next door on a journey around the globe to track down our newest wild animal neighbors Discover what is bringing these creatures to our backyards and how we can create spaces for people and animals to live side by side
