van dit boek Citizenship in Historical Perspective Steven G. Ellis, Guðmundur Hálfðanarson, Ann Katherine Isaacs, 2006
 The volume looks at the past and the present of European citizenship and by implication its future The aim of the investigation is theoretical and practical It is based on the conviction that knowledge is essential for decision making political or otherwise and that more knowledge is needed to make decisions about European citizenship Attitudes towards such vital political and ethical issues as citizenship are commonly based on general impressions and opinions rather than on a critically founded understanding As historians and specialists in other social and human sciences we believe it is our duty to contribute to the common patrimony of understanding and insight so that informed citizens can make informed decisions One part of the book is called Work gender and society it contains the articles from Waaldijk Laikos and Hageman **Van wie is de burger?** Wim de Jong, 2014-09-24 Dissertatie Radboud Universiteit Nijmegen 2014 **Burgerschap en burgerzin** Sytze Faber, 1968 **Out of Character** Rogier van Reekum, 2023-12-28 This book offers a detailed and innovative study of the Dutch case of politics of citizenship and nationalism by focusing on public and political controversies in the crucial period of 1973 2015 By foregrounding the crucial role of performance and narration in public and political debates this book shows how discourses of citizenship and nationhood are deeply shaped by established repertoires and long lasting lines of disagreement about difference and belonging in the Netherlands While change did occur within the Dutch context during this period this book reveals that these transformations were not primarily driven by purportedly permissive and accommodating responses to immigration and cultural diversity Instead it unveils a Dutch landscape deeply marked by challenges related to race democracy and liberal exceptionalism In doing so the book contributes to ongoing debates in the study of citizenship nationalism and intellectual history around the merits and limitations of liberal politics of inclusion It critically extends concepts and arguments in cultural pragmatics and problematizes the common hope that public debate may progressively resolve antagonisms over difference With a focus on empirical research the book meticulously reconstructs the emergence of national identity debates in recent decades and vividly portrays the dynamics and tensions of these public performances while dissecting their role in shaping the nation's identity and its boundaries The book covers a crucial period of the European politics of citizenship and nationhood in which anti immigrant politics new modes of racism and the bordering of Europe took shape It locates the Dutch case within these developments and insists on the importance of historical continuity and narrative performance This book demonstrates that the Netherlands and Europe more broadly has not overcome the profound consequences of its past **Devenir belge** Marie-Claire Foblets, René Foqué, Michel Verwilghen, 2002
