goals and objectives building trust within their unit listening with an open mind giving feedback and encouraging collaboration to name a few The focus switches for the managerial leader from doing things to leading others Therefore this book is for anyone who currently serves as a managerial leader or for anyone who desires to manage and lead others Most managerial communication books focus on the important written and oral communication skills While the author believes these skills are critically important she found in her role as a managerial leader she devoted the majority of her time to interpersonal communication Leaders need to build teams and to maintain relationships with all stakeholders The best way to make that happen is through skills such as listening asking questions and giving feedback Therefore this book includes an emphasis on interpersonal communication As Chris M Martin stated in a recent article The ability to communicate effectively may be the number one management quality Therefore this book will raise awareness relative to oral written and interpersonal communication skills so that individuals can become better managerial leaders
