M.I.A Alberto Trevin, 2012-08-17 Military Industrial Apocalypse deals with a major conspiracy which sets off the worst terrorist attack in United States history. As the American economy spirals out of control, extremists and enemy states abroad have taken notice and join forces to bring down its sworn enemy while it is vulnerable. As the economy worsens, American leaders begin to panic and start looking for extreme measures to remedy the situation at home. With financial problems of their own and dissidence, two of America's greatest enemies collude to land a decisive blow that will eliminate the American problem once and for all. With the discovery of the planned major terrorist attack, two high-ranking officials from Central Intelligence and National Intelligence try to persuade an unpopular President to play along with the plot and thus exploit a potential situation which might help sway popular opinion in favor of the President and put America back to work. When their idea enrages the President, they go after the next best alternative: military icons. Both play along, but not before the controlled attack goes very wrong, and all are left scrambling looking for answers except one of them who has plans of his own and in effect secures his own personal interests. The attack persuades the American President to go after the perpetrators for an inevitable showdown with a powerful Middle Eastern country which will undoubtedly have apocalyptic consequences.
