Allens Introduction To Later Chinese Porcelain:

Allen's Introduction to Later Chinese Porcelain Anthony J. Allen, 2014-04-15 Chinese porcelain of the period 1820 through 1920 has to date been the province of a minority of academic authors and a few adventurous dealers and collectors. This misunderstood but fascinating field of study is now brought within the reach of the average collector. Written with the interests of novice collectors and dealers in mind, superbly illustrated in colour throughout, each of the introductory chapters concludes with suggestions for further reading and thus provides a fast but solid grounding for the primary focus of the book: dating of later Chinese porcelains. This book discusses marks, reign marks, footrim, glazes, bubbles, flaws and imperfections and other indications of a date of manufacture, including the contentious subjects of hollow line and the reversed S. Illustrating in close-up images many of the features used by the author to substantiate his assertions, unashamedly provocative, Allen concludes with chapters on those subjects most earlier writers treated as taboo, including Modern Fakes and their Detection, Buying Trips in Asia and Recommendations for Investment.

Allen's Introduction to Later Chinese Porcelain Anthony J. Allen, 2014 Arts of Asia, 1997 **The Bulletin of the Oriental Ceramic Society of Hong Kong** Oriental Ceramic Society of Hong Kong, 2002 **Allen's Authentication of Later Chinese Porcelain (1796 AD - 1999 AD)** Anthony John Allen, 2013-06-30 ALLEN'S AUTHENTICATION OF LATER CHINESE PORCELAIN continues on from the earlier Allen's Introduction to Later Chinese Porcelain in a more detailed examination of aspects of dating and provides even the novice collector or dealer with information, dating techniques and illustrations which would otherwise take years to learn. The focus of the work is primarily on the dating of porcelain made between the beginning of the Jiaqing reign in 1796 AD and ending in the penultimate year of the 20th Century, 1999. As many of the porcelains made in this 200-year period were copies of earlier periods, there are also a number of illustrations of genuine porcelain and pottery pieces made in the late Ming and earlier Qing dynasties, i.e. prior to 1796 AD. Progressing chronologically through the late Qing dynasty reigns of Jiaqing through Xuantong, this book then examines the porcelain of the Republic period, 1912 to 1949, and then the Mao period of the People's Republic of China, before concluding with a preliminary look at the dating of Chinese redwares and details of the author's visit to Jingdezhen in 1998. With over 480 full-colour illustrations of not only the items but of their backs and undersides, close-ups of marks, footrim and glazes, this is undoubtedly the most detailed English language text yet on the dating of Chinese porcelain of this period. The author's often blunt and provocative commentary will undoubtedly offend some quarters of the Asian art world, but collectors for generations to come will thank him for his advice on detecting the bane of every collector's life: the Chinese porcelain fake intentionally made to deceive.
