Albert & Thomas Simon Tugwell, 1988 Contains writings by two 13th century Dominicans both Doctors of the Church St Albert the Great 1200 1280 patron saint of natural scientists and the common doctor St Thomas Aquinas 1226 1274 both famous for their contributions to philosophy and theology **The Cambridge Companion to Aquinas** Norman Kretzmann, Eleonore Stump, 1993-05-28 Among the great philosophers of the Middle Ages Aquinas is unique in pursuing two apparently disparate projects On the one hand he developed a philosophical understanding of Christian doctrine in a fully integrated system encompassing all natural and supernatural reality On the other hand he was convinced that Aristotle's philosophy afforded the best available philosophical component of such a system In a relatively brief career Aquinas developed these projects in great detail and with an astonishing degree of success In this volume ten leading scholars introduce all the important aspects of Aquinas thought ranging from its historical background and dependence on Greek Islamic and Jewish philosophy and theology through the metaphysics epistemology and ethics to the philosophical approach to Biblical commentary Christ the Light David L. Whidden (III), 2014 In *Christ the Light* Whidden argues that illumination is a critical systematic motif in Aquinas theology one that involves the nature of truth knowledge and God at the root Aquinas theology of light or illumination is Christological grounding human knowledge of God and eschatological beatitude This volume establishes the theological network formed by the crucial motif of light illumination in Aquinas from how theology operates to the systematic sacramental and moral coordinates in Aquinas theology Choosing Our Religion Elizabeth Drescher, 2016-03-01 To the dismay of religious leaders study after study has shown a steady decline in affiliation and identification with traditional religions in America By 2014 more than twenty percent of adults identified as unaffiliated up more than seven percent just since 2007 Even more startling more than thirty percent of those under the age of thirty now identify as Nones answering none when queried about their religious affiliation Is America losing its religion Or as more and more Americans choose different spiritual paths are they changing what it means to be religious in the United States today In *Choosing Our Religion* Elizabeth Drescher explores the diverse complex spiritual lives of Nones across generations and across categories of self identification such as Spiritual But Not Religious Atheist Agnostic Humanist just Spiritual and more Drawing on more than one hundred interviews conducted across the United States Drescher opens a window into the lives of a broad cross section of Nones diverse with respect to age gender race sexual orientation and prior religious background She allows Nones to speak eloquently for themselves illuminating the processes by which they became None the sources of information and inspiration that enrich their spiritual lives the practices they find spiritually meaningful how prayer functions in spiritual lives not centered on doctrinal belief how morals and values are shaped outside of institutional religions and how Nones approach the spiritual development of their own children These compelling stories are deeply revealing about how religion is changing in America both for Nones and for the religiously affiliated family friends and neighbors with whom their
